HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained production-ready **Java Spring Boot** applications, designing and implementing **REST APIs** for cross-service data exchange, handling approximately **1,500 requests per minute**.
- Engineered and maintained **Java Spring Boot** applications with a focus on persistence layers, integrating **Hibernate** and **JPA** to manage complex relational data models across distributed systems.
- Implemented robust **Java** solutions incorporating object-oriented design principles and unit testing frameworks like **JUnit**, ensuring code quality and maintainability for enterprise-level services.
- Contributed to system architecture discussions, focusing on improving application **scalability** and **resilience** in high-performance environments.
- Participated in code reviews for a team of 5 engineers, providing constructive feedback to uphold code quality and adherence to development standards.
- Troubleshot complex production issues across distributed systems, performing root cause analysis and implementing corrective actions to ensure system stability.
- Containerized backend services using **Docker** and deployed them to **AWS EC2** instances, managing configurations and ensuring consistent environments across development and production.

SKILLS

Languages – C#, .NET, Python, JavaScript, SQL, Java

Frameworks/Libraries – WPF, Spring Boot, Hibernate, JPA, JUnit

Cloud/DevOps – AWS, EC2, S3, Lambda, CloudWatch, Docker, CI/CD, Git, Jenkins

Databases – PostgreSQL, MySQL, Oracle

Tools – Jira, Confluence, Splunk, Dynatrace

Methodologies – Agile, Scrum

PROJECTS

Enterprise Java Application Modernization (HCL Technologies)

- Modernized a critical enterprise Java application by refactoring monolithic components into microservices using **Spring Boot**, improving overall system maintainability.
- Integrated **Hibernate** and **JPA** for enhanced data access layer performance, reducing query execution times by an average of **20%** for core data retrieval operations.
- Developed comprehensive unit and integration tests with **JUnit**, achieving over **85% code coverage** for newly developed modules and ensuring stability during migration.

Distributed Systems Performance Optimization (HCL Technologies)

- Analyzed and optimized performance bottlenecks in distributed Java applications, focusing on inter-service communication patterns and database query efficiency.
- Implemented asynchronous processing using message queues to handle peak loads, improving throughput by approximately **30%** during high-traffic periods.
- Configured and monitored application performance using **Splunk** and **Dynatrace**, identifying and resolving critical latency issues impacting user experience.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
