HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Implemented and maintained **Java Spring Boot** REST APIs supporting core business functions, integrating with **PostgreSQL** databases for data persistence.
- Developed and optimized **JPA** queries and entity mappings to enhance data retrieval performance and ensure data integrity across enterprise applications.
- Designed and implemented **JUnit** and **Mockito** test suites for Java components, increasing code coverage by **18%** and reducing production defects.
- Managed, maintained, and developed new functionalities within a centralized **Data Centralizer** platform, aligning with data governance and reporting specifications.
- Led User Acceptance Testing (UAT) cycles for new reserving applications, coordinating with business stakeholders and IT teams from testing through production rollout.
- Defined clear data and reporting specifications for new partners and reinsurance treaties, ensuring alignment with internal audit, risk, and compliance controls.
- Containerized enterprise applications using **Docker** and deployed them to **AWS EC2** instances, enabling consistent environments and simplifying deployment processes.

SKILLS

Programming Languages – Java, Python, SQL, VBA, R

Frameworks & Libraries – Spring Boot, JPA, Hibernate, JUnit, Mockito, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

BI & Analytics – Power BI, Tableau, DAX, Power Query, Data Modelling

Tools & Methodologies – Jira, Confluence, Agile, Scrum, Linux Shell Scripting

PROJECTS

Reserving Model Development for Insurance Products

- Developed a Python-based reserving model to calculate liabilities for new life insurance products, incorporating actuarial assumptions and regulatory requirements.
- Engineered data pipelines using **pandas** and **SQL** to extract and transform policy data from multiple sources into a format suitable for actuarial analysis.
- Trained a **scikit-learn** regression model on historical policy data to forecast future claims, achieving an **RMSE of 0.12** on a held-out test set.

Centralized Data Platform Enhancement (HCL Technologies)

- Enhanced a **Java Spring Boot** application serving as a central data platform, adding new APIs to ingest data from external TPAs.
- Refactored existing **SQL** queries and implemented database indexing strategies on **PostgreSQL**, reducing average query execution time by **30%**.
- Collaborated with business analysts to gather requirements for new reporting functionalities, ensuring seamless integration with downstream systems.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
