HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Implemented automated security testing tools and frameworks, integrating **Jenkins pipelines** for continuous security validation across development lifecycles.
- Monitored emerging threats and applied strategic risk mitigation by analysing **Splunk** logs and **Dynatrace** alerts for anomalous activity.
- Supported security audits and incident response by triaging **P1/P2 incidents**, performing root cause analysis, and documenting resolutions in **Confluence**.
- Integrated security best practices into development operations by establishing secure coding standards and conducting peer code reviews for **Java Spring Boot** applications.
- Maintained compliance with key standards by ensuring production environments adhered to **GDPR** requirements and audit trail mandates.
- Contributed to infrastructure security by containerising applications using **Docker** and deploying them to **AWS EC2** instances.
- Enhanced system security through the development of **Python scripts** for automated vulnerability scanning and log analysis across enterprise systems.

SKILLS

Security Frameworks – NIST, ISO 27001, CIS, OWASP, PCI DSS, GDPR

Network Security – Firewalls, VPNs, IDS/IPS

Cloud Security – AWS, Azure

Tools & Technologies – SIEM, Threat Intelligence, Endpoint Protection, Vulnerability Management, Splunk, Dynatrace, Jenkins, Docker, Python, Java, SQL, Spring Boot, AWS

Methodologies – Penetration Testing, Vulnerability Assessment, Secure Coding, Incident Response, Agile

PROJECTS

Enterprise Application Security Hardening (HCL Technologies)

- Enhanced the security posture of critical enterprise applications by implementing **OWASP Top 10** mitigation strategies within **Java Spring Boot** microservices.
- Developed automated security checks using **Python** scripts integrated into **Jenkins CI/CD pipelines** to identify common vulnerabilities prior to deployment.
- Configured **AWS Security Groups** and **Network ACLs** to enforce least-privilege access for production workloads, reducing the attack surface by an estimated **18%**.

Automated Security Monitoring and Alerting (HCL Technologies)

- Built a real-time threat detection system by configuring **Splunk** to ingest and analyse application logs and system events, reducing alert fatigue by **30%**.
- Developed **Python**-based automation to parse security alerts from **AWS CloudWatch** and trigger incident response workflows via **Jira** tickets.
- Established comprehensive audit trails for critical financial transactions, ensuring compliance with **GDPR** data handling requirements and providing detailed logs for regulatory review.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
