HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices for core backend operations, handling approximately **4,500 requests per minute** during peak hours.
- Implemented **Hibernate** for data persistence, managing complex object-relational mappings for financial transaction data across multiple PostgreSQL schemas.
- Designed and built **RESTful APIs** using **Spring Boot**, facilitating seamless integration between frontend applications and backend data services, including robust error handling and request validation.
- Contributed to code reviews and mentored junior engineers on best practices in **Java development** and **Spring Boot** application design.
- Participated in **Agile ceremonies**, including sprint planning and technical estimation, to ensure timely delivery of features within a collaborative development environment.
- Containerised backend services using **Docker** and deployed to **AWS EC2** instances, ensuring consistent environments from development through to production.
- Managed production incidents for enterprise applications, conducting root cause analysis and implementing fixes within strict **SLA** targets using **Splunk** and **Dynatrace** for monitoring.

SKILLS

Backend Development – Java, Spring Boot, Hibernate, REST APIs, Microservices, JPA, JUnit, Maven

Frontend Development – React, JavaScript, HTML5, CSS3, TypeScript

Databases – PostgreSQL, Oracle, MySQL, SQL

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD

Tools & Methodologies – Agile, Scrum, Jira, Confluence, Linux, Shell Scripting, Splunk, Dynatrace

PROJECTS

Enterprise Java Payments Platform Enhancement

- Enhanced a **Java Spring Boot**-based payments processing platform by developing new microservices for transaction validation and enrichment.
- Integrated **Hibernate** with PostgreSQL to manage state transitions for over 10 million payment records, ensuring data integrity during concurrent operations.
- Wrote comprehensive unit tests using **JUnit**, achieving over **85% code coverage** for critical business logic modules.

React-based Dashboard for Operations Monitoring

- Developed a dynamic **React** frontend dashboard to visualize key operational metrics from backend services, improving real-time system oversight.
- Implemented **REST API** integrations to fetch data from multiple Java microservices, displaying status and performance indicators for enterprise applications.
- Collaborated with operations teams to define reporting requirements, ensuring the dashboard provided actionable insights for performance tuning.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
