HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Google Apps Script** automations to ingest status updates from various PMO tools, eliminating manual data entry for over 300 project statuses weekly.
- Developed and maintained an **AppSheet application** for field teams to log site visit progress and capture critical issue details, improving data capture accuracy by approximately 20%.
- Integrated disparate project management data sources, including **Asana exports** and raw spreadsheets, into a central repository for cross-tool reconciliation and reporting.
- Built and supported **Looker Studio dashboards** to visualize portfolio-level status, risk aging, and key operational KPIs for PMO stakeholders, enabling faster decision-making.
- Owned and managed the data model for reporting, defining field specifications, implementing refresh logic, and establishing **data quality checks** within Google Sheets.
- Prototyped **AI-assisted workflow** summarization using Google AI Studio to condense weekly status reports, identifying potential for a 40% reduction in manual review time.
- Containerized a Python-based data processing script using **Docker** and deployed it to an **AWS Lambda** function for scheduled execution, ensuring reliable data pipeline operations.

SKILLS

Automation & Scripting – Google Apps Script, Python, JavaScript, REST APIs, Webhooks, JSON

Low-Code Platforms – AppSheet, Power Apps

BI & Visualization – Looker Studio, Power BI, Tableau, Google Sheets

Data Modeling & Management – Relational Data Modeling, Data Warehousing, ETL

AI & LLM Tools – Google AI Studio, Gemini API, LLM Prototyping

Project Management Tools – Asana, Jira, Smartsheet

Cloud & Containerization – AWS Lambda, Docker, EC2, S3, CloudWatch

PROJECTS

PMO Data Aggregation & Reporting Automation (HCL Technologies)

- Developed Python scripts and SQL queries to extract and consolidate project status, risk, and milestone data from multiple enterprise systems, reducing manual compilation time by 50%.
- Designed and implemented automated reporting workflows using **Jenkins** and shell scripts, generating weekly status summaries for program managers.
- Managed the data ingestion and transformation process, ensuring data integrity and consistency across various sources for downstream analysis and reporting.

Field Operations Dashboard and Workflow App (HCL Technologies)

- Built a **Power BI dashboard** to provide real-time operational insights on transaction processing volumes and reconciliation status for a financial services client.
- Created a supporting **Python application** using Flask to automate data validation checks before loading into the dashboard's data model.
- Collaborated with business analysts to refine data requirements and ensure the dashboard accurately reflected key operational metrics.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
