HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for enterprise business systems, handling cross-system integrations and data flows across PostgreSQL and Oracle databases.
- Implemented **Hibernate** and JPA entities to manage persistence layers for core application modules, ensuring data integrity and efficient querying.
- Designed and implemented object-oriented solutions using **Java EE** principles, writing unit tests with **JUnit** and employing **Mockito** for dependency mocking to achieve 85% code coverage.
- Assisted with the development and testing of integrations involving **REST APIs** and **JD Edwards Orchestrator**, guided by senior colleagues to meet customer requirements.
- Contributed to the development and adaptation of **web-based interfaces** and tools designed to meet specific customer needs within enterprise application projects.
- Investigated and troubleshot defects across enterprise applications, working with the team to implement and document fixes, and participated in **code reviews** to uphold team standards.
- Containerized backend services using **Docker** and managed deployment configurations on **AWS EC2** instances, ensuring consistent environments for development and production.

SKILLS

Core Java – Java EE, Spring Boot, Hibernate, JPA, JUnit, Mockito, Maven, Gradle

Databases – SQL, PostgreSQL, Oracle, MySQL, Relational Databases

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, CI/CD

Enterprise Systems – JD Edwards, Oracle Cloud Infrastructure, Oracle Integration Cloud, Oracle Fusion Cloud Applications, REST APIs, JD Edwards Orchestrator

Development Methodologies – Agile, Scrum, Object-Oriented Design, Version Control, Code Reviews, Testing

Soft Skills – Problem Solving, Communication, Teamwork, Self-Directed Learning, Documentation

PROJECTS

Enterprise Java Application Modernization

- Re-architected a monolithic Java application into a microservices-based system using **Spring Boot**, improving system modularity and enabling independent deployments.
- Integrated a new **JPA/Hibernate** persistence layer with a **PostgreSQL** database to manage core business data, reducing query execution times by **30%**.
- Developed **RESTful APIs** for inter-service communication, ensuring robust error handling and implementing security best practices for data exchange.

Custom Integration for Business Process Automation

- Developed a **Python** script to automate data extraction and transformation from legacy systems, feeding into an enterprise reporting tool.
- Built a **REST API** endpoint using **Flask** to expose processed data, facilitating integration with an external customer-facing dashboard.
- Implemented scheduled jobs using **cron** for regular data updates, ensuring timely availability of information for operational teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
