PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Configured and maintained **electronic document management** and **quality management systems**, ensuring compliance with regulatory requirements and internal standards for a global pharmaceutical client.
- Resolved application and server-level system issues for **IT Quality Systems applications**, performing root cause analysis and communicating technical findings to business process owners and end-user teams.
- Managed the end-to-end lifecycle of **IT Applications change control requests**, coordinating with Validation and Quality teams to ensure all system modifications adhered to a compliant development process.
- Developed and maintained **tabular, trend, and label reports** using SQL and application-specific reporting tools to track system performance and operational metrics for Quality Systems.
- Provided subject matter expertise to functional departments on system development and implementation projects, supporting application readiness for regulatory and partner inspections.
- Administered user accounts and performed functional support for IT Quality Systems, including leading **IT Applications security access reviews** and periodic **audit trail assessments**.
- Containerized several internal Java Spring Boot microservices using **Docker** and deployed them to an **AWS EKS** cluster, managing configurations with Helm and monitoring resource utilization.

SKILLS

Quality Systems – Electronic Document Management, Quality Management, Validation Management, Training Management, Electronic Signature, Electronic Forms

IT Administration – Veeva, ComplianceWire, OpsTrakker, Box, ValGenesis, User Account Administration, Access Reviews

Development & Support – Java, Spring Boot, REST APIs, SQL, PostgreSQL, Python, Docker, AWS (EC2, S3, Lambda, CloudWatch), Jenkins, Jira, Confluence, Linux

Reporting & Analytics – Power BI, Tableau, DAX, Power Query, SQL Reporting, Data Modelling

Process & Documentation – Technical Writing, Process Mapping, User Requirement Specifications, Detail Design Specifications, Configuration Test Plans, Change Control Management, Audit Trail Assessment

PROJECTS

Quality System Configuration & Reporting Enhancement

- Enhanced the configuration and reporting capabilities of an **electronic document management system**, enabling faster retrieval of critical compliance documents for audit preparation.
- Developed **tabular and trend reports** in Power BI and SQL to visualize key performance indicators for quality system usage and adherence, reducing manual reporting effort by approximately 40% for the operations team.
- Collaborated with Quality and Validation departments to document system changes and ensure alignment with GxP guidelines and internal SOPs.

Automated User Access Review for Enterprise Applications

- Built a Python script to automate the extraction of user access logs from multiple enterprise applications, including a **Java Spring Boot**-based internal feature store.
- Processed and analyzed user access data to identify discrepancies and compliance risks, generating a summary report for the security team that flagged ~15% of user accounts requiring review.
- Integrated the script with Jenkins for scheduled execution, streamlining the periodic **IT Applications security access review** process.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
