PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Configured and maintained LabWare master data including analyses, components, and specifications, managing ~500 distinct data points per release cycle under strict change control.
- Developed and debugged LabWare LIMS Basic subroutines for custom triggers and workflows, impacting the processing logic for 15 core laboratory analyses.
- Authored and executed validation protocols (IQ/OQ/PQ) for GxP and 21 CFR Part 11 compliance, ensuring system integrity for critical laboratory operations.
- Designed, built, and supported REST APIs and interfaces between LabWare LIMS and enterprise systems such as ERP and ELN, facilitating data exchange for ~10 critical laboratory instruments.
- Wrote and maintained complex SQL queries and stored procedures for data extraction and reporting, supporting the generation of Certificates of Analysis for over 3,000 sample batches annually.
- Collaborated with Quality Assurance and Validation teams to manage LIMS change control requests, ensuring adherence to the GxP development lifecycle approach for all system modifications.
- Containerized LIMS reporting services using Docker and deployed them to an AWS EKS cluster, improving deployment consistency and reducing manual configuration steps by 40%.

SKILLS

LIMS Development – LabWare LIMS, LIMS Basic, Master Data Management, Traceability, Change Control, IQ/OQ/PQ, GxP, GAMP 5, 21 CFR Part 11

API & Integration – REST APIs, SOAP APIs, XML, JSON, Web Services

Database & Reporting – SQL, Stored Procedures, Oracle, SQL Server, Crystal Reports, Certificates of Analysis, Labels

Core Technologies – Python, Java, Spring Boot, AWS, EC2, S3, Lambda, Docker, Kubernetes, Git, Jenkins, Jira, Confluence

Laboratory Domain – Analyses, Components, Products, Specifications, Test Methods, Sample Plans, Laboratory Stakeholders, Regulatory Compliance

PROJECTS

LabWare LIMS Configuration for GxP Compliance

- Configured and validated LabWare LIMS master data for a pharmaceutical client's quality control laboratory, including analyses, components, and test methods, ensuring strict adherence to GxP standards.
- Developed custom LIMS Basic scripts to automate sample plan generation and trigger specific workflows based on sample type, reducing manual entry errors by approximately 20% for a team of 8 analysts.
- Authored comprehensive design specifications and executed validation test scripts for new LIMS configurations, contributing to the successful deployment of a new product testing module.

Enterprise System Integration for Lab Data Exchange

- Built and maintained a Python-based API interface to connect LabWare LIMS with an enterprise ERP system, enabling seamless transfer of ~5,000 sample test results per week.
- Developed SQL stored procedures to aggregate and transform LIMS data for consumption by an ELN system, improving data accessibility for research and development teams.
- Implemented RESTful web services using Flask to expose critical LIMS data points, facilitating integration with downstream analytical platforms.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
