# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Developed **Python** scripts to automate data extraction and transformation processes, reducing manual reporting effort by **~40%** for the operations team.
- Designed and implemented **SQL** queries and stored procedures in **PostgreSQL** for complex data retrieval and manipulation, supporting analytical reporting needs.
- Built and maintained **Java Spring Boot** REST APIs for internal service integrations, handling approximately **1,500 requests per minute** during peak hours.
- Engineered **ETL/ELT** data pipelines, integrating data from ERP systems and manufacturing platforms into a central data warehouse for reporting.
- Created interactive **Power BI** dashboards and reports, utilizing **DAX** measures and **Power Query** to deliver actionable insights on production efficiency and supply chain metrics.
- Wrote **Power Automate** workflows to streamline repetitive administrative tasks, coordinating with business users to identify and implement process improvements.
- Managed **CI/CD pipelines** using **Jenkins** and **Git** for automated builds and deployments, ensuring consistent and reliable application updates.

## SKILLS

**Data Engineering** – ETL, ELT, Data Pipelines, Data Integration, Dimensional Modelling, Star Schema, Semantic Models, Data Warehousing, Data Profiling, Data Cleansing, Data Validation, API Data Extraction, Reconciliation Checks, Exception Handling, Data Governance, Access Control.

**Databases & SQL** – SQL Development, Relational Databases, Stored Procedures, Views, Functions, Database Optimisation, PostgreSQL, Oracle, MySQL, SQL Server.

**BI & Reporting** – Power BI, DAX, Power Query (M), Semantic Models, Reports, Tableau.

**Automation & Scripting** – Power Automate, Python Scripting, Shell Scripting.

**Cloud & Infrastructure** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Linux, Hybrid Environments, On-Premises Environments.

**Programming Languages** – Java, Spring Boot, Python, SQL.

**Development Tools & Methodologies** – Jenkins, Git, Jira, Confluence, Agile, Scrum, REST APIs.

## PROJECTS

### Manufacturing Data Integration Platform (HCL Technologies)

- Developed **Python**-based ETL pipelines to ingest data from shop floor manufacturing systems and **ERP** modules into a centralized data repository.
- Designed and implemented **SQL** views and fact/dimension tables for a data warehouse, supporting downstream analytics and reporting requirements.
- Created automated reconciliation checks to validate data integrity across source systems and the data warehouse, identifying and flagging discrepancies.

### Production Efficiency Dashboard (MSc Applied Project)

- Built a comprehensive **Power BI** dashboard visualizing key production metrics, including throughput, yield, and downtime, for business stakeholders.
- Utilized **Power Query** to clean and transform data from multiple sources, and wrote complex **DAX** measures for performance calculations.
- Published interactive reports to the Power BI service, enabling real-time monitoring and analysis of manufacturing operations.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
