PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided first-line technical support to internal employees, responding to requests via Jira tickets, direct messages, and walk-ups, resolving an average of **15 complex issues** per week.
- Evaluated, isolated, and resolved hardware and software technical issues by systematically troubleshooting, asking open and closed questions, and reliably reproducing intermittent problems for end-users.
- Installed, modified, and repaired computer hardware and software, including **macOS and Windows** devices, ensuring secure configuration for demo environments and internal events.
- Managed an accurate inventory of **IT assets and peripherals**, conducting regular audits to ensure data integrity and support procurement processes.
- Contributed technical writing to a growing knowledge base, documenting solutions for common hardware and software problems to facilitate self-service for employees.
- Assisted and educated employees through the problem-solving process, following up to ensure all issues were fully resolved and satisfaction was achieved.
- Identified and initiated infrastructure improvement projects, developing processes to enhance workflow efficiency and streamline IT operations for a **500-employee organization**.

SKILLS

Operating Systems – macOS, Windows, Linux

Support Tools – Jira, Confluence, ServiceNow, Microsoft Teams

Hardware & Software – Troubleshooting, Installation, Repair, Configuration, Asset Management

Networking – TCP/IP, UDP, Basic Networking Concepts

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Microsoft 365, Active Directory

PROJECTS

Internal IT Support Automation (HCL Technologies)

- Developed Python scripts to automate common IT support tasks, including user account provisioning and deprovisioning, reducing manual effort by **30%** for the support team.
- Built a Jira integration to automatically categorize and prioritize incoming support tickets based on keywords and user impact, improving triage efficiency by **15%**.
- Created shell scripts for remote troubleshooting on Linux servers, enabling faster diagnosis of common operational issues without direct access.

Onboarding Technology Deployment (HCL Technologies)

- Configured and deployed new employee hardware, including laptops and peripherals, ensuring all necessary software and security configurations were in place prior to start dates.
- Developed standardized setup guides and troubleshooting documentation for common onboarding issues, reducing new hire setup time by an average of **45 minutes**.
- Coordinated with HR and onboarding teams to ensure a seamless technology experience for new hires, resolving setup issues before the first day.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
