PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided **first-line technical support** to internal employees across multiple channels including Jira tickets, direct messages, and walk-ups, ensuring timely resolution of hardware and software issues.
- Installed, configured, and modified **computer hardware and software**, including new employee onboarding setups and ad-hoc deployments for internal events.
- Managed and troubleshot **Microsoft Teams conference rooms** and various audio/visual deployments, ensuring seamless operation for internal meetings and presentations.
- Followed systematic troubleshooting procedures, including asking targeted questions and attempting to reproduce issues, to **resolve technical problems** for end-users.
- Contributed technical documentation to a growing **knowledge base**, detailing common issues and solutions to empower users and streamline support processes.
- Assisted with **device management** in a mixed macOS and Windows environment, ensuring compliance and operational readiness for company assets.
- Participated in **Agile ceremonies**, including sprint planning and daily stand-ups, to align on task prioritization and project timelines for IT infrastructure improvements.

SKILLS

Operating Systems – macOS, Windows, Linux

Support Tools – Jira, Confluence, Splunk, Dynatrace, CloudWatch

Hardware & Software – Computer Hardware Installation, Software Configuration, Microsoft Teams, Audio/Video Deployments

Networking – TCP, UDP, Basic Networking Concepts

IT Management – Asset Inventory, Device Management, Microsoft 365, Active Directory

Scripting & Automation – Python, Shell Scripting

Cloud Platforms – AWS (EC2, S3, Lambda)

PROJECTS

Enterprise Onboarding Technology Streamlining (HCL Technologies)

- Developed and implemented an automated **Python script** to pre-configure new employee workstations, reducing manual setup time by an average of 45 minutes per hire.
- Created standardized documentation and visual guides for common hardware and software setups, contributing to a **30% reduction in repeat support tickets** for onboarding-related issues.
- Collaborated with HR and IT operations teams to refine the end-to-end technology onboarding process, ensuring all new hires had necessary access and functional equipment from day one.

Internal IT Asset Management Enhancement (HCL Technologies)

- Designed and implemented a system for tracking IT assets using **Jira and Confluence**, improving inventory accuracy and reducing time spent on audits by approximately 20%.
- Developed **shell scripts** to automate the collection of hardware and software details from deployed machines, feeding data into the asset management system.
- Established new procedures for peripheral inventory management and disposal, ensuring compliance with company policies and reducing unaccounted hardware.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
