HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** microservices, implementing RESTful APIs for cross-system data exchange and handling approximately **1,500 requests per minute**.
- Engineered **Hibernate/JPA** entities and queries to manage relational data persistence for core enterprise applications, ensuring data integrity across multiple database schemas.
- Designed and implemented object-oriented solutions using **Java EE principles**, including robust error handling with **JUnit** and mocking frameworks for comprehensive unit testing.
- Collaborated with project managers and business analysts to refine technical requirements and provide **development estimates** for new ERP features within **Agile sprints**.
- Participated in peer code reviews, ensuring adherence to coding standards and identifying potential performance bottlenecks in **newly developed modules**.
- Configured and managed **Docker containers** for application deployment and local development environments, streamlining the build and test cycle.
- Managed **change control processes** for system configurations and deployed updates to enterprise business systems, coordinating User Acceptance Testing (UAT) with operations teams.

SKILLS

ERP & Platforms – D365, TMS, Power Platform, Canvas Apps, Model-Driven Apps, Power Automate, JavaScript, PowerFX

Backend Development – Java, Spring Boot, Hibernate, JPA, REST APIs, Microservices, Java EE

Databases – SQL, PostgreSQL, MySQL, Oracle

DevOps & Cloud – AWS, EC2, S3, Lambda, CloudWatch, Docker, Jenkins, Git

Scripting & Automation – Python, Shell Scripting

Methodologies & Tools – Agile, Scrum, Jira, Confluence

PROJECTS

Enterprise ERP System Integration (HCL Technologies)

- Developed **Java Spring Boot REST APIs** to integrate core ERP modules with an external inventory management system, enabling real-time data synchronization.
- Implemented data migration scripts using **Python** to transfer historical customer and order data from legacy databases into the new ERP system, processing over **500,000 records**.
- Collaborated with business stakeholders to gather requirements for system enhancements, documenting functional specifications and coordinating UAT cycles.

Logistics Operations Dashboard Enhancement (HCL Technologies)

- Built backend services using **Java** and **Spring Boot** to process and aggregate logistics operational data, supporting a dashboard used by a financial-services client.
- Designed and implemented SQL queries against **PostgreSQL** to extract and validate transaction data for reconciliation workflows, reducing manual data reconciliation effort by an estimated **20%**.
- Integrated monitoring tools like **Dynatrace** to track application performance and set up alerts for critical operational issues, contributing to SLA adherence.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
