PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for enterprise systems, handling requests for core business functions and ensuring efficient data exchange.
- Implemented robust data persistence layers using **Hibernate** and **JPA**, managing object-relational mapping for complex database schemas and optimizing query performance.
- Designed and developed reusable software components adhering to **Object-Oriented Design** principles, enhancing code maintainability and extensibility for a team of 5 engineers.
- Contributed to the technical design and estimation for new features within an **Agile/Scrum** framework, participating actively in sprint planning and daily stand-ups.
- Collaborated with senior architects to review and approve code changes from junior team members, ensuring adherence to coding standards and best practices.
- Managed project deliverables and timelines for assigned tasks, proactively identifying potential risks and proposing mitigation strategies to maintain project momentum.
- Containerized applications using **Docker** for consistent deployment across development and production environments on **AWS EC2** instances.

SKILLS

Core Java – Java, Spring Boot, Hibernate, JPA, REST APIs, JUnit, Object-Oriented Design

Data & Databases – SQL, PostgreSQL, MySQL, Oracle, Data Modelling, Relational Databases

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux Shell Scripting

Methodologies – Agile, Scrum, Change Management, Incident Response, Root Cause Analysis

Tools & Collaboration – Jira, Confluence, Splunk, Dynatrace, Postman

Analytics & BI – Power BI, Tableau, DAX, Power Query, R, Python (pandas, NumPy, scikit-learn)

PROJECTS

Enterprise Java Application Modernisation (HCL Technologies)

- Refactored legacy Java components into modular **Spring Boot** microservices, improving system performance and reducing deployment times by **40%**.
- Integrated new RESTful APIs using **JPA** for data access, enabling seamless communication between the core application and external partner systems.
- Developed comprehensive unit and integration tests with **JUnit**, achieving over **85%** code coverage for critical business logic modules.

Automated Reporting and Data Pipeline Enhancement (HCL Technologies)

- Developed a Python-based ETL pipeline to extract, transform, and load data from multiple relational databases (**PostgreSQL**, **Oracle**) into a central data warehouse for reporting.
- Created automated daily and weekly reports using **Python scripts** and SQL queries, delivering key operational metrics to business stakeholders and reducing manual reporting effort by approximately **15 hours per week**.
- Implemented data validation checks within the pipeline to ensure data integrity and accuracy before ingestion, catching an estimated **95%** of data discrepancies.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
