PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Engineered **Python scripts** to automate data extraction and aggregation from disparate sources, reducing manual reporting effort by approximately **15 hours** per week.
- Developed and maintained **Java Spring Boot** RESTful APIs for core business functionalities, ensuring seamless integration with upstream and downstream services.
- Managed production incidents for enterprise applications, performing root cause analysis and implementing fixes within strict **SLA** targets, ensuring system availability.
- Constructed **SQL queries** and performed data validation across **PostgreSQL** and **Oracle** databases, supporting data integrity for critical financial operations.
- Designed and implemented **Power BI dashboards** to visualize key performance indicators for operational teams, enabling faster data-driven decision-making.
- Collaborated with cross-functional teams, including business analysts and operations, to gather requirements and support User Acceptance Testing for system enhancements.
- Containerised applications using **Docker** and managed deployments within a **Linux** environment, improving consistency and reducing deployment times.

SKILLS

Programming Languages – Java, Python, SQL, R, Bash

Frameworks & Libraries – Spring Boot, Hibernate, pandas, NumPy, scikit-learn, FastAPI, Flask

Databases – PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Linux

BI & Data Visualization – Power BI, Tableau, DAX, Power Query

Methodologies – Agile, Scrum

PROJECTS

Automated Financial Reporting Pipeline (HCL Technologies)

- Developed a **Python**-based ETL pipeline to ingest and transform transaction data from multiple sources into a central reporting database.
- Implemented data validation checks and error handling within the pipeline to ensure data quality and accuracy for downstream analysis.
- Generated scheduled reports using **pandas** and automated their distribution to operational stakeholders, improving report delivery efficiency by **30%**.

Interactive Operational Dashboard (MSc Data Analytics)

- Designed and built an interactive **Power BI** dashboard visualizing key operational metrics for a simulated enterprise system.
- Created complex **DAX measures** and optimized data models to support real-time filtering and drill-down capabilities.
- Presented the dashboard to a simulated business stakeholder group, demonstrating insights derived from the data.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
