PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java/Spring Boot** RESTful APIs for enterprise applications, ensuring adherence to strict coding standards and delivery within defined timelines.
- Integrated disparate technical and application components to meet complex business requirements, coordinating with cross-functional teams to ensure seamless functionality.
- Wrote and executed comprehensive **unit and integration test plans**, contributing to a robust testing strategy that ensured application stability and performance.
- Participated in **development code reviews**, providing constructive feedback to team members to uphold high standards for **JAVA** coding practices.
- Mentored junior team members on Java development best practices and application-specific standards, facilitating knowledge transfer and skill enhancement within the team.
- Contributed to the **full software development lifecycle**, from initial concept and design through to testing and deployment, for enterprise-grade applications.
- Managed containerized applications using **Docker** and deployed them to **Red Hat OpenShift** environments, configuring resources and ensuring smooth operational rollouts.

SKILLS

Languages – Java, JavaScript, TypeScript, HTML, CSS, SCSS, PL/SQL, XML

Frameworks/Libraries – Spring, Spring Boot, Angular2+, Quarkus, Node.js, Hibernate, JPA

Databases – Oracle, PostgreSQL, MySQL

Tools/Platforms – Git, Red Hat OpenShift, Red Hat PAM, Red Hat Single Sign-On, Jenkins, Jira, Confluence, Splunk, Dynatrace, Docker

Web Services/APIs – RESTful APIs, Web Services

Development Practices – Agile Methodologies, Scrum, Unit Testing, Integration Testing, Code Reviews, UX/UI Development, Message Broker Technologies

PROJECTS

Enterprise Java Application Modernization

- Re-architected legacy Java components into a modern **Spring Boot** microservices architecture, improving modularity and maintainability.
- Implemented data persistence using **Hibernate** and **JPA**, ensuring efficient data retrieval and storage against an **Oracle** database.
- Developed and documented comprehensive **JUnit** test suites to achieve over 85% code coverage for critical service modules.

API Integration for Financial Services Dashboard

- Built a suite of **RESTful APIs** in **Java Spring Boot** to expose transaction data from a PostgreSQL database for a payments operations dashboard.
- Integrated with upstream messaging systems to process and monitor transaction flows, ensuring data consistency and operational visibility.
- Collaborated with business analysts to define API contracts and ensure alignment with operational reporting requirements for financial services.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
