PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Investigated and resolved production support cases, troubleshooting defects and integration failures for enterprise applications on **AWS**.
- Developed **Python** scripts to automate recurring tasks, including data extraction for reporting and log analysis, reducing manual effort by approximately **30%**.
- Built and maintained **Java Spring Boot** REST APIs for cross-service data exchange, implementing request validation and circuit-breaker patterns.
- Wrote, tested, and deployed maintainable software using established engineering practices, participating in code reviews and **Agile** ceremonies.
- Participated in scheduled support rotations, gaining insight into system reliability and identifying areas for improvement in monitoring and alerting.
- Collaborated with senior mentors and product teams to understand system architecture, prioritize technical improvements, and safely deliver changes.
- Containerized backend services using **Docker** and deployed them to a managed **Kubernetes** cluster, configuring basic resource limits for predictable rollouts.

SKILLS

Languages – Python, Java, SQL, JavaScript, TypeScript, Go

Frameworks/Libraries – Spring Boot, Flask, FastAPI, scikit-learn, pandas, NumPy

Cloud/Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools/Platforms – Splunk, Dynatrace, Jira, Confluence

Methodologies – Agile, Scrum, CI/CD

PROJECTS

Automated Log Analysis and Alerting System

- Engineered a **Python**-based system to parse and analyze application logs from **AWS CloudWatch**, identifying common error patterns.
- Developed automated alerts triggered by specific log events, reducing manual log review time for the operations team by an estimated **40%**.
- Integrated the system with a notification service to provide real-time alerts on critical issues, improving incident detection speed.

Customer Onboarding Workflow Automation

- Designed and implemented a **Python** script to automate the initial setup and configuration steps for new enterprise customers integrating with our platform.
- Developed REST API interactions to provision user accounts and grant initial access based on customer-provided specifications, streamlining the onboarding process.
- Created clear documentation and ran a short walkthrough session for the customer success team on how to utilize the automation tool.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
