HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained backend APIs using **Java Spring Boot**, implementing **RESTful services** and integrating with PostgreSQL databases for a financial-services operations dashboard.
- Engineered Python scripts to automate data extraction and transformation tasks for scheduled reporting, processing approximately **500 GB** of daily transactional data.
- Managed production support for enterprise applications, responding to P1/P2 incidents using **Splunk** and **Dynatrace**, and ensuring adherence to strict SLAs.
- Designed and deployed backend APIs on **public cloud infrastructure (AWS)**, integrating with services like EC2 and S3 to support scalable application deployments.
- Wrote and reviewed code for new feature development and bug fixes in Java Spring Boot applications, participating in **Agile ceremonies** and conducting peer code reviews.
- Containerized microservices using **Docker** and deployed them to a **Kubernetes** cluster, configuring basic resource limits and managing container lifecycles.
- Collaborated with cross-functional teams to gather requirements for system integrations and support User Acceptance Testing (UAT) for enterprise business systems.

SKILLS

Languages – Java, Python, SQL, R, JavaScript

Frameworks & Libraries – Spring Boot, Hibernate, JPA, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools & Platforms – Splunk, Dynatrace, Jira, Confluence, Power BI, Tableau

Concepts – REST APIs, Microservices, Data Structures, Algorithms, Design Patterns, Concurrency, Agile, Test-Driven Development

PROJECTS

Scalable Orchestration Service Backend (HCL Technologies)

- Developed a **Java Spring Boot**-based backend service to manage and orchestrate complex business workflows, handling approximately **1,500 requests per minute**.
- Implemented robust error handling and retry mechanisms using **Hibernate** and Spring Data JPA, ensuring data consistency across distributed transactions.
- Designed and built **RESTful APIs** for external system integrations and internal service communication, achieving p95 latency below **200ms**.

Automated Financial Data Pipeline (HCL Technologies)

- Engineered a **Python** data pipeline to ingest, transform, and load financial transaction data from multiple sources into a central data warehouse.
- Wrote **SQL** scripts for data validation and quality checks, identifying and rectifying over **500 data anomalies** per week.
- Automated report generation using pandas and Python scripting, delivering daily operational summaries to business stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
