PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Responded to and triaged an average of **15-20 support cases daily** for enterprise data and analytics platforms, ensuring timely updates to requesters and maintaining backlog health.
- Investigated platform alerts and escalated incidents with detailed context, following established runbooks to engage Site Reliability Engineers when necessary.
- Managed user provisioning, role hierarchy updates, and access management requests for internal Salesforce platforms, adhering to security policies and change controls.
- Executed scheduled data updates and bulk data loads, contributing to the operational stability of CRM Analytics and Tableau environments.
- Documented and improved lightweight Standard Operating Procedures (SOPs) and Support Reference Manuals (SRMs), drafting updates based on learnings from case investigations.
- Contributed to Root Cause Analysis (RCA) reports for application bugs and recurring failures, identifying technical debt and proposing fixes.
- Developed and tuned monitors and alerts within the observability stack, flagging potential issues before they impacted end-users.

SKILLS

Platform Operations – CRM Analytics, Tableau, Data 360, Production Support, Incident Response, Root Cause Analysis, Runbooks, SOPs

Case Management – Ticket Triage, Escalation Management, SLA Management, Stakeholder Communication, Case Backlog Management, CSAT

Administration – User Provisioning, Access Management, Role Hierarchy, Data Loads, Sandbox Maintenance, Declarative Solutions, Validation Rules

Cloud & Infrastructure – AWS, EC2, S3, Lambda, CloudWatch, Docker, Linux, Shell Scripting

Data & Analytics Tools – SQL, Power BI, DAX, Power Query, RStudio, pandas, NumPy, scikit-learn

Development & Automation – Java, Spring Boot, REST APIs, Python, Jenkins, Git, Jira, Confluence

PROJECTS

Production Support Enhancement for Enterprise Data Platform

- Streamlined the incident response process for the Data 360 platform by creating detailed runbooks and escalation matrices, reducing average incident triage time by **18%**.
- Automated routine data refresh tasks using Python scripts integrated with AWS Lambda, ensuring data consistency across reporting environments for over **50 internal dashboards**.
- Collaborated with business analysts to document and map end-to-end data flows, improving clarity for cross-functional teams and reducing support escalations by **12%**.

MSc Applied Data Analytics Project: Sales Performance Dashboard

- Developed an interactive sales performance dashboard using **Power BI**, incorporating complex DAX measures to track key performance indicators for a simulated enterprise sales team.
- Performed ETL operations using **Power Query** to clean and transform data from multiple sources, enabling robust data modeling and accurate reporting.
- Presented dashboard insights and findings to MSc project stakeholders, demonstrating clear communication of technical results to non-technical audiences.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
