HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed and troubleshot customer support requests across live chat, email, and phone, owning cases from initial investigation through final resolution using **Jira**.
- Investigated and diagnosed complex technical issues within enterprise Java/.NET applications, identifying root causes and escalating product bugs to Engineering teams.
- Developed and improved **documentation** and knowledge base articles, supporting incident response and streamlining support workflows as a technical advisor.
- Authored **Python scripts** to automate data extraction and reporting tasks, processing approximately 5GB of daily log data for analysis and trend identification.
- Designed and implemented **REST APIs** using Java Spring Boot for cross-service communication, handling an average of 150 requests per second.
- Executed **SQL queries** against PostgreSQL and Oracle databases for data validation and ad-hoc reporting, managing schema changes for application updates.
- Containerized Java Spring Boot applications using **Docker** and deployed them to **AWS EC2** instances, configuring basic resource limits for predictable performance.

SKILLS

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Docker, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace

BI & Analytics – Power BI, Tableau, DAX, Power Query

Operating Systems – Linux

PROJECTS

Customer Support Automation Suite (HCL Technologies)

- Developed a Python-based tool to automate the categorization and initial triage of incoming customer support tickets, reducing manual processing time by **30%**.
- Integrated the Python tool with **Jira** and **Confluence** APIs to automatically update ticket statuses and link relevant documentation, improving team workflow efficiency.
- Authored comprehensive user guides and ran two training sessions for the support team on utilizing the new automation tools for incident management.

Enterprise Application Monitoring Dashboard (HCL Technologies)

- Engineered a Java Spring Boot application to aggregate monitoring data from **Splunk** and **Dynatrace** into a centralized dashboard, providing real-time operational insights.
- Designed and implemented RESTful endpoints to serve aggregated metrics, supporting approximately 200 requests per minute from downstream reporting tools.
- Configured **AWS Lambda** functions to process and transform log data from CloudWatch Logs before ingestion into the monitoring service.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
