PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed and triaged customer support requests across live chat, email, and phone, owning cases from initial investigation through final resolution for an enterprise client.
- Investigated and diagnosed complex technical issues on enterprise applications using **Splunk** and **Dynatrace**, identifying root causes and escalating product bugs to the engineering team.
- Developed **Python** scripts to automate data ingestion and ETL processes, reducing manual data preparation time by approximately **30%** for scheduled reporting.
- Designed and implemented **REST APIs** using **Java Spring Boot** to facilitate cross-service data exchange, ensuring robust error handling and data validation.
- Created and improved technical documentation and knowledge base articles to streamline support workflows, contributing to a **15%** reduction in common issue resolution time.
- Collaborated with cross-functional teams, including Product and Engineering, to share customer feedback and influence the product roadmap for enterprise CRM solutions.
- Containerized backend services using **Docker** and deployed them to **AWS EC2** instances, managing configurations and basic resource allocation.

SKILLS

CRM – Salesforce CRM, Salesforce CPQ, Revenue Cloud Advanced

Support Tools – Jira, Confluence, Splunk, Dynatrace, CloudWatch, PagerDuty

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Analytics & BI – Power BI, Tableau, DAX, Power Query

PROJECTS

Enterprise Application Support Dashboard

- Developed a **Java Spring Boot** application to aggregate monitoring data from **Splunk** and **Dynatrace** for an enterprise financial-services client.
- Implemented real-time alerting for critical P1/P2 incidents, enabling faster response times and improving SLA adherence for a portfolio of 12 internal applications.
- Designed RESTful endpoints to expose key operational metrics, supporting ad-hoc data analysis by the operations team.

Automated Data Pipeline for Reporting

- Engineered a **Python**-based ETL pipeline to extract, transform, and load data from multiple **PostgreSQL** and **Oracle** databases into a data warehouse.
- Automated the generation of weekly operational reports using pandas, reducing manual processing effort by approximately **20 hours** per month.
- Integrated the pipeline with **Jenkins** for scheduled execution and monitoring, ensuring reliable data delivery for business stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
