PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Originated and led the delivery of high-quality, evidence-based research on market trends, translating complex economic and property data into clear, actionable insights for senior stakeholders and clients.
- Managed the full production process for research outputs, coordinating contributions from market teams and co-authors, ensuring data quality, accuracy, and timely delivery against agreed deadlines.
- Developed original and commercially relevant research themes that strengthened market positioning and supported client engagement, building a narrative from complex data and stakeholder discussions.
- Partnered with market-facing teams to provide strategic research and sector insight that supported transactions and client advice, responding efficiently to ad hoc requests.
- Led market briefings and presentations for internal stakeholders and clients, providing evidence-based commentary on economic and property market trends and their commercial implications.
- Reviewed research outputs from junior team members, helping to maintain consistent standards across publications and client materials.
- Containerized analytics and data processing services using **Docker** and deployed them to an **AWS** environment, configuring basic resource limits for predictable rollout.

SKILLS

Research & Analysis – Market Intelligence, Thought Leadership, Economic Analysis, Property Markets, Commercial Awareness, Data Interpretation, Quantitative Skills

Data Visualization & BI Tools – Power BI, Tableau, DAX, Power Query, Data Modelling

Programming & Scripting – Python, SQL, R, pandas, NumPy, scikit-learn

Backend Development – Java, Spring Boot, REST APIs, Hibernate, JPA

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Project Management & Methodologies – Agile, Scrum, Stakeholder Management, Client Engagement, Presentation Skills, Written Communication

PROJECTS

Property Market Analysis Dashboard (MSc Project)

- Developed an interactive **Power BI** dashboard to visualize key trends in the Irish property market, integrating data from multiple sources including economic indicators and transaction volumes.
- Extracted and transformed data using **Power Query** and applied **DAX** measures to create insightful visualisations and identify commercial implications for investors and developers.
- Presented the final dashboard and key findings to MSc faculty and a panel of industry professionals, demonstrating clear communication of complex data.

Automated Reporting Pipeline (HCL Technologies)

- Engineered a **Python**-based ETL pipeline to automate the generation of daily operational reports for financial services clients, processing approximately **15,000** transaction records per day.
- Integrated the pipeline with **PostgreSQL** databases for data extraction and utilized **pandas** for data manipulation and aggregation, ensuring data accuracy and consistency.
- Scheduled report generation using Linux cron jobs and delivered outputs via email, reducing manual reporting effort by an estimated **10 hours** per week.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
