# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Installed and configured **advanced wafer processing equipment** on-site at enterprise customer facilities, adhering to strict cleanroom protocols and safety guidelines.
- Performed **technical troubleshooting and diagnostics** on semiconductor manufacturing machinery, resolving hardware and software issues to minimize customer downtime.
- Collaborated with a **cross-functional engineering team** to execute complex equipment installations and modifications, ensuring project milestones were met.
- Executed detailed **installation plans and schematics** for new equipment deployments, verifying component integrity and system connectivity before initial power-up.
- Managed **on-site logistics and inventory** for critical spare parts and tooling during extended installation cycles across multiple European customer sites.
- Contributed to the development of **standard operating procedures** for equipment maintenance and repair, enhancing team knowledge transfer and consistency.
- Containerized diagnostic tools and support scripts using **Docker** for consistent deployment across diverse customer Linux environments, streamlining troubleshooting.

## SKILLS

**Engineering Discipline** – Mechanical Engineering, Electronics Engineering, Mechatronics, Electrical Engineering

**Technical Skills** – Equipment Installation, Equipment Maintenance, Technical Support, Troubleshooting, Cleanroom Environments, Logistics Management

**Software & Tools** – Linux, Docker, Git, Jira, Confluence

**Methodologies** – Agile, Scrum

**Hardware** – Wafer Processing Equipment, Semiconductor Manufacturing Equipment

## PROJECTS

### Semiconductor Equipment Installation & Commissioning

- Led the on-site installation and initial setup of **complex semiconductor manufacturing equipment** at a major fabrication facility, ensuring all components met rigorous specifications.
- Developed and executed **commissioning test plans** to validate equipment functionality and performance against design parameters, identifying and rectifying **15+ critical deviations** before customer acceptance.
- Managed the deployment and integration of essential **Linux-based control systems** and diagnostic utilities, ensuring seamless operation within the customer's existing infrastructure.

### Customer Site Technical Support Framework

- Designed a standardized framework for **on-site technical support** for enterprise customers, detailing best practices for troubleshooting and communication in cleanroom environments.
- Created **troubleshooting guides and runbooks** for common equipment faults, reducing average resolution time for P1 incidents by approximately **20%** across monitored systems.
- Provided **remote and on-site technical assistance** to customer engineering teams, facilitating successful equipment operation and maintenance.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
