PROFESSIONAL EXPERIENCE — 3.5+ YEARS

Trust & Safety Agent — Accenture, Dublin, Ireland

Jul 2026 – Present

- Review and action user-generated content and account reports against a large-scale online platform's **community standards** and policies.
- Investigate escalated abuse cases, including harassment, hate speech, scams, inauthentic behaviour, and graphic content.
- Document **policy enforcement** decisions and identify emerging abuse trends through meticulous **content review**.
- Meet stringent quality-audit, calibration, accuracy, and productivity targets for **risk assessment** and case resolution.

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Developed Java Spring Boot applications, implementing REST APIs for system integrations and data exchange.
- Wrote Python scripts to automate data pipelines, supporting ETL processes and scheduled reporting for financial operations.
- Managed SQL databases (PostgreSQL, MySQL, Oracle) for data validation and ad-hoc querying to support investigations.
- Provided production support for enterprise applications, monitoring performance using Splunk and CloudWatch.
- Responded to P1/P2 incidents, managing SLAs and coordinating resolution efforts for critical system issues.
- Analyzed logs and system data to identify patterns and anomalies, informing proactive issue resolution and runbook updates.
- Collaborated with operations and business analysts on requirements, UAT, and post-implementation triage for financial client systems.

SKILLS

Policy Enforcement & Moderation – Community standards, policy enforcement, content review, escalations, risk assessment, inauthentic behaviour, scams, hate speech, harassment, graphic content.

Technical Skills – Python, Java, SQL, Spring Boot, REST APIs, AWS, Docker, Linux, Git, Jenkins, Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau, R, pandas, NumPy, scikit-learn.

Data Analysis & BI – Data analytics, data pipelines, ETL, data validation, data modelling, dashboards, DAX, Power Query, statistical analysis, A/B testing, machine learning fundamentals.

Financial Operations – Payments operations, transaction monitoring, reconciliation workflows, operational alerting, audit trails, GDPR awareness.

System Integration & Support – ERP integration, change-control management, UAT support, cross-system integrations, enterprise business systems.

Core Competencies – Incident response, SLA management, fault diagnosis, problem-solving, communication, collaboration, documentation, compliance.

PROJECTS

Payment Fraud Detection Analysis (MSc Data Analytics)

- Developed Python scripts using pandas and scikit-learn to analyze transaction data and identify potential fraudulent activities.
- Built Power BI dashboards to visualize transaction patterns, anomaly detection results, and key risk indicators for stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
