HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Managed the creation and maintenance of **item master records** within **Agile PLM**, **Oracle EBS**, and **Oracle Cloud Fusion Product Development/Product Data Hub**, ensuring data accuracy for product lifecycle management.
- Processed authorised **ECOs** and **ECNs**, updating **product revisions** and **Bills of Materials** from approved documentation to maintain data integrity across systems.
- Supported **product data alignment** and **cleansing initiatives** between disparate business systems, contributing to a unified and accurate master data repository.
- Developed Python scripts to automate the generation of **scheduled reports** and manage small-scale **ETL processes**, reducing manual effort by approximately 15%.
- Executed ad-hoc **SQL queries** against relational databases (PostgreSQL, Oracle) for data validation and to support operational reporting needs.
- Participated in **Agile/Scrum ceremonies**, including sprint planning and retrospectives, contributing to efficient team collaboration and timely delivery of tasks.
- Containerized multiple **Java Spring Boot** applications using **Docker**, facilitating consistent deployment across development and staging environments on **AWS EC2**.

SKILLS

Product Data Management – Item Master Data, Bills of Materials, Product Revisions, ECOs, ECNs, Agile PLM, Oracle EBS, Oracle Cloud Fusion PD/PDH

Data Administration & Quality – Data Cleansing, Data Migration, Data Entry, Accuracy, Compliance, Master Data Maintenance

Programming & Scripting – Python, Java, SQL

Cloud & Containerization – AWS (EC2, S3, Lambda, CloudWatch), Docker

Development Tools & Methodologies – Git, Jenkins, Jira, Confluence, Agile, Scrum

Database Technologies – PostgreSQL, Oracle

Office Productivity – Microsoft Excel, Microsoft Office

PROJECTS

Product Master Data Governance Initiative

- Designed and implemented a standardized process for updating **product attributes** and **supplier information** within a simulated enterprise system, adhering to strict change control procedures.
- Developed Python scripts to validate data entries against predefined schemas before import into the master data system, catching approximately 60% of common formatting errors.
- Collaborated with a simulated business analyst team to define data quality metrics and reporting requirements for the product master data.

Automated Reporting for Enterprise Systems

- Engineered Python scripts to extract data from **Oracle EBS** and generate daily operational summary reports, delivered via email to key stakeholders, reducing manual reporting time by 4 hours per week.
- Wrote complex **SQL queries** to aggregate and transform data from multiple tables for inclusion in the automated reports, ensuring data consistency.
- Managed the scheduling of Python scripts using cron jobs on a Linux environment, ensuring reliable and timely report generation.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
