PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Installed, configured, and managed **Windows Server 2019/2022 environments** and **Active Directory domains** for enterprise client operations, supporting over 500 user accounts.
- Deployed and administered **VMware vSphere** virtual environments, maintaining 150+ virtual machines supporting critical manufacturing applications.
- Executed system and network-level **cybersecurity administration**, including timely application of security patches and active participation in incident response for critical IT/OT systems.
- Provided advanced technical support for **IT/OT systems**, resolving complex issues across network, hardware, and application layers to ensure **99.8% system availability**.
- Configured and troubleshot **Cisco enterprise network hardware**, including switches and firewalls, ensuring stable connectivity for manufacturing floor operations.
- Developed and maintained comprehensive **system documentation**, including URS, DS, and DDS, ensuring adherence to client's system standards and operational policies.
- Supported infrastructure for **high availability and disaster recovery** solutions, implementing failover mechanisms and regularly testing recovery procedures.

SKILLS

Operating Systems – Windows Server 2019, Windows Server 2022, Linux, Windows 10/11

Virtualization – Hyper-V, VMware vSphere

Networking – LAN, WiFi, Cisco hardware, Firewalls, TCP/IP

Cybersecurity – OT/IT Security, Patch Management, Incident Response, Active Directory

Cloud & Infrastructure – AWS (EC2, S3, Lambda, CloudWatch), Docker

Scripting & Automation – Python, Shell Scripting

PROJECTS

OT Network Security Hardening Initiative

- Enhanced security posture for an industrial control system network by implementing **segmentation and firewall rules**, reducing exposure to external threats by an estimated 40%.
- Configured and deployed **Cisco ASA firewalls** and managed access control lists to restrict unauthorized traffic between IT and OT environments.
- Developed detailed documentation for new network security configurations and standard operating procedures for incident response, supporting a team of 5 engineers.

Windows Server & Active Directory Deployment for Manufacturing Plant

- Led the deployment of a new **Windows Server 2022 environment** and integrated it with the existing **Active Directory domain** at a client's manufacturing site.
- Automated user account provisioning and group policy management using **Python scripts**, reducing manual effort by approximately 30% and improving consistency.
- Collaborated with client operations teams to define system requirements and provided post-go-live support, ensuring smooth transition and minimal disruption.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
