PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Configured and deployed **Windows Server 2019** instances, integrated with **Active Directory** domains to manage user authentication and group policies for a team of 15 engineers.
- Installed and troubleshot enterprise-grade **Cisco network switches** and **Fortinet firewalls**, ensuring secure connectivity for critical IT/OT operational systems supporting manufacturing workflows.
- Managed and maintained **Hyper-V virtualization environments**, deploying and configuring virtual machines for application hosting and system testing, reducing physical hardware footprint by 40%.
- Performed system and network-level **security administration**, including regular **patch management** for Windows OS and applications, and participating in **incident response** for security alerts.
- Documented detailed **system configurations**, **URS**, **DS**, and **DDS** for new deployments and infrastructure upgrades, ensuring adherence to client system standards and operational policies.
- Provided advanced technical support across **network, hardware, and application layers** for complex IT/OT systems, diagnosing and resolving issues to maintain high availability.
- Supported infrastructure for **high availability and disaster recovery** setups, implementing failover mechanisms and regular testing to ensure business continuity.

SKILLS

Networking – Enterprise Networks, LAN, WiFi, Cisco hardware configuration, Network switches, Firewalls

Operating Systems – Windows Server 2019, Windows OS deployment, Active Directory, Domain Management

Virtualization – Hyper-V, Virtual Machine deployment

Cybersecurity – OT/IT Environments, Security Administration, Patch Management, Incident Response

Hardware – Dell Servers, Hardware Installation, Problem Resolution

Documentation – System Configurations, URS, DS, DDS, Requirements Documentation

Cloud/Infrastructure – AWS, EC2, S3, Lambda, CloudWatch, Docker

PROJECTS

IT/OT Infrastructure Hardening (HCL Technologies)

- Enhanced network security by implementing strict firewall rules and VLAN segmentation across a **Cisco network infrastructure**, reducing unauthorized access attempts by approximately 30%.
- Deployed and configured **Windows Server 2019** instances with hardened security settings, integrated into existing **Active Directory** domains to support critical operational applications.
- Developed comprehensive documentation including **URS** and **DS** for secure network and server deployments, ensuring compliance with enterprise security policies.

Virtualization and Server Deployment Automation

- Automated the deployment of **Hyper-V virtual machines** using PowerShell scripting, reducing deployment time for new application environments from 2 days to 3 hours.
- Managed server hardware installations and configurations for Dell servers, including initial OS setup and network integration for enterprise clients.
- Performed routine system maintenance and troubleshooting on virtualized infrastructure, ensuring optimal performance and stability for hosted applications.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
