HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained native iOS applications for the **Pandora** and **SiriusXM** platforms, contributing to detailed technical specifications and class-level design.
- Authored proof-of-concept iOS applications to explore new feature implementations and validate technical approaches, ensuring alignment with product vision.
- Collaborated with senior engineers to refine call flows and define interfaces between the mobile client and backend services, enhancing system integration.
- Participated actively in **Agile development sprints**, including task breakdown, estimation, and daily stand-ups for the mobile client development team.
- Owned the software development coding standards, conducted rigorous **code reviews**, and maintained comprehensive documentation for mobile client software development.
- Facilitated the troubleshooting of pre- and post-production issues by working closely with the development team to identify root causes and implement solutions.
- Containerized mobile application components using **Docker** and managed deployments within an **AWS** environment, ensuring efficient resource utilization.

SKILLS

Mobile Development – iOS, Swift, Objective-C, iPhone, iPad, XCUnit

Backend Integration – Web Services, HTTP Protocol, Service-Oriented Architecture, MVC, MVVM

Programming Languages – Swift, Objective-C

Databases – Data Persistence Techniques, Database Fundamentals

Development Methodologies – Agile Software Development, Code Review, Technical Specification

Cloud Platforms – AWS, Docker

PROJECTS

iOS Application Feature Development (SiriusXM)

- Engineered new features for the **SiriusXM** iOS application, focusing on user experience and performance improvements, integrating with backend APIs.
- Wrote comprehensive unit tests using **XCUnit** to ensure code quality and stability, achieving over 85% code coverage for new modules.
- Collaborated with product managers to translate user stories into technical requirements and implement solutions within tight release cycles.

Mobile Client-Backend Interface Refinement (Pandora)

- Defined and refined interfaces between the **Pandora** mobile client and backend services, improving data synchronization and reducing API latency by **15%**.
- Developed RESTful API interaction logic within the iOS application, ensuring efficient data retrieval and error handling.
- Documented the updated interface specifications and conducted knowledge-sharing sessions with the backend development team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
