HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Swift**-based features for the **Pandora** mobile application, focusing on user interface enhancements and API integrations.
- Modified mobile application software code and wrote proof-of-concept applications in **Objective-C** to support new feature development for the **SiriusXM** platform.
- Contributed to the detailed technical specification of **iOS** mobile applications, defining new call flows and refining interfaces between the mobile client and backend services.
- Facilitated the troubleshooting of pre- and post-production issues by collaborating closely with the development team to identify and resolve bugs.
- Participated actively in the **Agile** development process for mobile client development, contributing to sprint planning and task breakdown sessions.
- Owned the software development coding standards, conducted code reviews, and ensured all documentation was maintained as it applies to software development of the mobile client.
- Managed containerized application deployments on **AWS EC2** instances using **Docker**, ensuring consistent environments across development and production.

SKILLS

Mobile Development – Swift, Objective-C, iOS, iPhone, iPad, MVC, MVVM, UI Development

Backend Integration – Web Services, HTTP Protocol, Service-Oriented Architecture

Database & Persistence – Database Fundamentals, Data Persistence Techniques

Development Practices – Agile Software Development, Object-Oriented Design, Code Review, Documentation

Cloud & Containerization – AWS EC2, Docker

Testing Frameworks – XCUnit

PROJECTS

Enhancements to Pandora Mobile User Interface

- Developed new user-facing features for the **Pandora** mobile app using **Swift**, enhancing navigation and content discovery based on product requirements.
- Integrated new backend API endpoints into the iOS application, improving data retrieval and display for personalized content recommendations.
- Wrote unit tests using **XCUnit** to ensure the stability and correctness of implemented UI components and data handling logic.

SiriusXM Connected Vehicle Services App Backend Integration

- Collaborated with backend teams to define and implement RESTful API contracts for vehicle services, ensuring seamless data exchange with the mobile client.
- Contributed to the design of data persistence layers within the iOS application to cache vehicle status information, improving offline access for users.
- Participated in cross-functional team meetings to refine system architecture and troubleshoot integration challenges for the **SiriusXM** connected vehicle platform.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
