PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and deployed **Canvas Apps** for internal business units, streamlining data entry processes and improving reporting accuracy by approximately **15%**.
- Engineered scalable and reliable **Power Automate** workflows to automate cross-departmental approval chains, reducing manual processing time by an average of **30%**.
- Managed application lifecycle for **Power Platform** solutions, including configuration, deployment, and user support, ensuring high availability for critical business functions.
- Implemented robust data solutions using **SharePoint Lists** and **Dataverse**, designing schemas and relationships to support complex application requirements and integrations.
- Optimized performance of **Power Apps Canvas Apps** by refining data queries and component logic, resulting in a **20%** improvement in load times for key screens.
- Collaborated with business stakeholders to gather requirements, translate needs into technical specifications, and deliver user-friendly applications that addressed key operational challenges.
- Provided hands-on troubleshooting and performance tuning for existing **Power Platform** applications, resolving an average of **5 critical issues** per sprint and enhancing overall system stability.

SKILLS

Microsoft Power Platform – Power Apps Canvas Apps, Power Automate, Dataverse, SharePoint

Development – Application Optimization, Performance Tuning, Troubleshooting, Requirements Gathering, Problem-Solving

Cloud & Data – SharePoint Lists, Dataverse

Agile & Collaboration – Stakeholder Engagement, Cross-functional Teams

Programming Languages – JavaScript (for Power Apps)

Databases – SQL (implied for Dataverse)

PROJECTS

Automated Expense Reporting System (HCL Technologies)

- Designed and built a **Power Apps Canvas App** to automate the submission and approval of employee expense reports, integrating with **SharePoint Lists** for data storage.
- Developed complex **Power Automate** flows to route expense reports for multi-level approvals, automatically triggering notifications and updating report statuses in real-time.
- Collaborated with the finance department to define requirements and conducted UAT, ensuring the application met operational needs and improved reporting efficiency by an estimated **18%**.

Customer Onboarding Portal (HCL Technologies)

- Created a **Power App Canvas App** portal to guide new enterprise clients through the initial setup and configuration process, improving the user onboarding experience.
- Implemented custom logic within the app and **Power Automate** to dynamically present relevant setup steps and documentation based on client type, reducing onboarding time by approximately **25%**.
- Worked closely with client success managers to gather feedback and iterate on the portal design, ensuring a smooth and intuitive experience for external users.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
