# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Architected and implemented **Java 21 Spring Boot microservices** for a new enterprise content management system, focusing on secure RESTful APIs and event-driven integrations.
- Developed and deployed **custom IBM Content Navigator desktops** and widgets using **JavaScript** and the **Dojo Toolkit**, extending core functionalities for enterprise users.
- Integrated backend services with the **IBM Content Manager v8 (CM8) repository**, utilizing native **Java APIs** to manage complex item types and attributes for over 10,000 distinct data structures.
- Designed and implemented robust **data persistence layers** using **Spring Data JPA** with **PostgreSQL**, ensuring efficient and scalable data handling for microservices.
- Containerized **Java 21 Spring Boot applications** using **Docker**, and deployed them to a **Kubernetes** cluster, managing configurations and resource limits for production environments.
- Collaborated with DBAs and System Administrators to deploy and configure **WebSphere Application Server (WAS)** instances supporting enterprise content management solutions.
- Wrote and optimized **SQL queries** for data validation and retrieval from relational databases, supporting both legacy system integrations and new microservice data needs.

## SKILLS

**ECM Technologies** – IBM Content Navigator (ICN), IBM Content Manager v8 (CM8), Dojo Toolkit, JavaScript

**Backend Development** – Java 21, Spring Boot 3.x, Spring Ecosystem, Spring Data JPA, Spring Security, RESTful APIs, Microservices

**Databases** – PostgreSQL, MySQL, Oracle, SQL

**Containerization & Orchestration** – Docker, Kubernetes

**Application Servers** – WebSphere Application Server (WAS)

**Cloud & DevOps** – AWS (EC2, S3, Lambda, CloudWatch), Jenkins, Git

## PROJECTS

### IBM Content Navigator Customization Suite

- Developed a suite of custom plug-ins and extensions for IBM Content Navigator, enhancing user experience with custom widgets built using **JavaScript** and the **Dojo Toolkit**.
- Designed and implemented backend integration points using **Java** and native **CM8 APIs** to streamline document retrieval and attribute management for specific enterprise workflows.
- Configured custom desktops within ICN to provide tailored user interfaces, improving efficiency for a team of **20+ users** managing diverse content types.

### Containerized Microservices for Enterprise Data

- Built a set of **Java 21 Spring Boot microservices** to manage and serve enterprise data, leveraging **Spring Data JPA** with **PostgreSQL** for persistence.
- Containerized the microservices using **Docker** and orchestrated their deployment on a **Kubernetes** cluster, ensuring high availability and scalability for data access.
- Implemented secure **RESTful APIs** for inter-service communication and external system integration, handling approximately **500 requests per second** during peak loads.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
