HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Engineered native mobile features for last-mile delivery applications, translating designs into production-ready code across **Android (Kotlin)** and **iOS (Swift)** platforms.
- Owned UI/UX for mobile applications, collaborating with product teams to understand driver workflows and refining screen designs using **AI design tools** and platform guidelines.
- Integrated **AI coding assistants** (e.g., Claude Code, GitHub Copilot) to accelerate development cycles, ensuring code quality, security, and correctness for all shipped features.
- Developed and maintained background location tracking and offline data synchronization for mobile drivers, optimizing for **battery life** on the road and ensuring reliable operation.
- Architected mobile application features using **MVVM architecture** and dependency injection patterns, writing comprehensive unit and integration tests to ensure application stability.
- Monitored production applications using crash reporting and logging tools, troubleshooting and resolving issues to maintain high levels of reliability and performance for the driver app.
- Containerized mobile application build and deployment pipelines using **GitHub Actions** and **Fastlane**, enabling automated testing and release management.

SKILLS

Mobile Development – Kotlin, Jetpack Compose, Coroutines, Swift, SwiftUI, Async/Await, Android, iOS, Mobile App Lifecycle, Background Work, Permissions, Platform Constraints

AI & Design Tools – AI Coding Assistants, Claude Code, Cursor, GitHub Copilot, AI Design Tools, Figma AI, v0, Claude, Material Design, Human Interface Guidelines

Backend & APIs – REST APIs, Push Notifications, FCM, APNs, Local Data Storage, Dependency Injection

Architecture & Testing – MVVM, MVI, Unit Testing, Integration Testing, Code Review

DevOps & Tools – Git, CI/CD, GitHub Actions, Fastlane, Docker

Cloud & Observability – AWS, Firebase Crashlytics, Sentry, Datadog, GPS, Location Services, Geofencing, Mapbox SDK

PROJECTS

AI-Assisted Mobile App Feature Development (SmartRoutes)

- Developed key features for a route optimization mobile application, leveraging **Kotlin** and **Jetpack Compose** for Android, focusing on offline capabilities and background processes.
- Designed and prototyped user interfaces for new driver workflows using **AI design tools**, iterating based on feedback to improve usability and efficiency.
- Integrated **GitHub Copilot** to accelerate the implementation of core app logic and API interactions, ensuring adherence to architectural patterns and platform best practices.

Cross-Platform Mobile App Development POC (SmartRoutes)

- Built a proof-of-concept for an iOS customer-facing app using **Swift** and **SwiftUI**, demonstrating native feature development and integration with backend services.
- Explored the use of **AI coding assistants** for rapid prototyping and code generation on the iOS platform, evaluating their impact on development speed and code quality.
- Implemented background location updates and push notifications for the iOS application, ensuring compliance with Apple's platform guidelines and optimizing for performance.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
