HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Architected and developed **RESTful APIs** and **microservices** using **Java Spring Boot**, integrating with **PostgreSQL** and adhering to **object-oriented programming** principles for enterprise applications.
- Implemented asynchronous communication patterns via **Azure Event Hubs**, processing approximately **1,500 events per minute** to decouple services and enhance application resilience.
- Designed and built responsive, accessible user interfaces with **React.js**, **TypeScript**, **HTML5**, and **CSS3**, focusing on clean code and user experience for internal financial tooling.
- Managed the full lifecycle of cloud-native applications on **Microsoft Azure**, deploying and configuring services including **App Services**, **Azure Functions**, and **API Management (APIM)**.
- Collaborated with cross-functional teams within an **Agile** framework, participating actively in **sprint planning**, daily stand-ups, and retrospectives to ensure timely delivery of high-quality software.
- Developed and maintained complex data models and queries for both **SQL** and **NoSQL** databases, ensuring data integrity and efficient retrieval for reporting and application needs.
- Containerized applications using **Docker** and orchestrated deployments within a **Kubernetes** environment, implementing basic resource management and scaling configurations.

SKILLS

Cloud Platforms – Microsoft Azure, Azure Functions, App Services, API Management (APIM), Azure Event Hubs, AWS (EC2, S3, Lambda, CloudWatch)

Backend Development – Java, Spring Boot, Node.js, TypeScript, RESTful APIs, Microservices, OOP

Frontend Development – React.js, JavaScript, HTML5, CSS3

Databases – PostgreSQL, SQL, NoSQL

DevOps & Containerization – Docker, Kubernetes, CI/CD, Jenkins, Git

Methodologies – Agile, Scrum, Sprint Planning, Code Reviews

PROJECTS

Enterprise Banking Application Modernization (Java/Azure)

- Re-architected a legacy Java application into a suite of **microservices** deployed on **Azure App Services**, improving maintainability and enabling independent scaling.
- Developed new **RESTful APIs** using **Spring Boot** to expose core banking functionalities, integrating with a **PostgreSQL** database for transactional data.
- Implemented event-driven workflows using **Azure Event Hubs** to process and alert on high-volume transaction data, reducing manual reconciliation efforts by an estimated **20%**.

Customer Onboarding Portal (React/TypeScript)

- Designed and built a customer-facing portal using **React.js** and **TypeScript** to streamline the onboarding process for new financial services clients.
- Integrated the portal with backend services via **RESTful APIs**, enabling clients to submit necessary documentation and track their application status in real-time.
- Developed interactive dashboards and data visualizations within the portal, providing clients with clear insights into their account status and service utilization.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
