PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Acted as the primary technical point of contact for 3 assigned enterprise customers, deeply understanding their Snowflake architecture and business priorities to drive case progression and influence.
- Managed day-to-day progression of support cases and escalations for key accounts, ensuring internal teams understood customer specifics and issues moved forward with clarity.
- Delivered technical and executive-level updates to customers through regular touchpoints, providing insights on query performance, warehouse utilization, and security best practices.
- Partnered with customers to identify trends and complex production issues, ensuring high case quality and delivering well-documented root cause analyses (RCAs).
- Advocated for customer priorities in account reviews, collaborating closely with internal teams to ensure issues were understood and prioritized appropriately.
- Led problem-solving sessions for complex technical challenges, coordinating across Support, Engineering, and Cloud Operations teams to achieve resolution.
- Containerized data processing services using **Docker** and deployed them to an **AWS EKS** cluster, configuring basic resource limits for predictable rollout.

SKILLS

Data Warehousing – Snowflake, SQL, RDBMS, MPP databases, Data integration, ETL/ELT

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Programming & Scripting – Python, Java, Spring Boot, SQL

Databases – PostgreSQL, MySQL, Oracle, RDBMS, Query optimization, Window functions

Observability & Support Tools – Splunk, Dynatrace, Jira, Confluence, Jenkins

Data Visualization & BI – Power BI, Tableau, DAX, Power Query

Containerization – Docker, Kubernetes (basics)

PROJECTS

Customer Architecture Review for Data Platform Performance

- Conducted in-depth technical reviews of customer data warehousing architectures, focusing on query performance and warehouse utilization patterns.
- Identified and documented **inefficiencies in SQL queries** and **warehouse configuration**, providing actionable recommendations that reduced processing times by an average of **28%** for critical workloads.
- Collaborated with customer data science and engineering teams to translate architectural findings into implementation plans and best practice adoption strategies.

Production Support Automation for Enterprise Applications

- Developed **Python scripts** to automate routine production support tasks, including log analysis, data validation, and incident reporting.
- Engineered **ETL pipelines** using SQL and Python to aggregate operational metrics from multiple sources, reducing manual reporting effort by **15 hours per week**.
- Integrated automation scripts into **Jenkins CI/CD pipelines** for scheduled execution and monitoring, improving system reliability and reducing manual intervention.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
