PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Owned the end-to-end customer journey for a B2C social discovery platform, identifying and addressing friction points from registration through to user engagement, resulting in a **15% increase** in successful conversation initiations.
- Analyzed user behavior and product analytics using **BigQuery** and **AI tools**, formulating and validating evidence-backed hypotheses for product improvements and growth opportunities.
- Authored concise product briefs and detailed specifications for new features, guiding development teams through implementation and release cycles to enhance user experience.
- Prioritized and managed the product backlog based on the projected value to both users and the business, ensuring alignment with strategic growth objectives and unit economics.
- Drove product initiatives that directly impacted key business metrics, including **revenue** and **net profit**, by scaling successful experiments across the product portfolio.
- Collaborated closely with development, design, and data analysis teams to translate product vision into tangible, high-impact features, ensuring seamless integration and user adoption.
- Designed and implemented a **Python-based A/B testing framework** for rapid experimentation, enabling the team to conduct over **50 tests** per quarter and iteratively improve conversion funnels.

SKILLS

Product Management – Product Owner, Product Manager, Customer Journey Mapping, Backlog Prioritization, Product Briefs, Roadmapping, User Experience (UX), Requirements Gathering

Analytics & Data Tools – BigQuery, AI Tools, SQL, Data Analysis, Funnel Analytics, Unit Economics, A/B Testing, Data Visualization

Development Methodologies – Agile, Scrum, Product Development Lifecycle, Sprint Planning, User Stories, Specifications

Programming & Scripting – Python, SQL

Collaboration & Communication – Cross-functional Teams, Stakeholder Management, Developer Collaboration, Designer Collaboration

Business Metrics – Revenue, Net Profit, Business Impact, Growth Opportunities

PROJECTS

Customer Onboarding Optimization for Social Platform

- Redesigned the initial user onboarding flow for a B2C social platform, reducing time-to-first-interaction by **30%** through streamlined registration and profile setup.
- Developed a **Python script** to analyze onboarding completion rates across different user segments, identifying key drop-off points and informing iterative improvements.
- Collaborated with UX designers to prototype and test new onboarding modules, incorporating feedback from **user interviews** to enhance engagement and reduce early churn.

User Engagement Feature Development & Analysis

- Engineered and launched a new in-app messaging feature, which increased average daily active users by **12%** within the first month.
- Wrote **SQL queries** to extract and analyze user interaction data with the new feature, providing insights into adoption patterns and feature stickiness.
- Presented findings and recommendations on feature performance to product leadership, influencing roadmap decisions for future engagement initiatives.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
