PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Delivered and installed solar-powered traffic safety equipment, including Variable Message Signs and access barriers, to customer sites across Ireland.
- Performed routine inspections, cleaning, and maintenance on returned equipment at the depot, ensuring functionality and safety for subsequent deployments.
- Assisted with the setup and commissioning of new equipment installations, providing initial demonstrations to customers.
- Maintained accurate digital job sheets and equipment tracking records using a combination of company software and meticulous note-taking.
- Diagnosed and resolved common faults related to batteries, solar components, and wiring on traffic safety equipment.
- Collaborated effectively with the Operations Manager and colleagues to support the expansion of the Irish operations and ensure smooth service delivery.
- Managed a personal toolkit and work area, ensuring all tools and equipment were organised, maintained, and in good working condition for daily use.

SKILLS

Equipment Handling – Delivery, Installation, Collection, Setup, Commissioning, Demonstration

Maintenance & Repair – Inspection, Cleaning, Fault Diagnosis, Battery Systems, Solar Components, Wiring

Customer Service – Professional Interaction, On-site Support, Problem Resolution, Equipment Tracking

Operations Support – Digital Record Keeping, Job Sheet Management, Tool Organisation, Work Area Maintenance

Driving – Full Valid Driving Licence, Ireland-wide Travel

PROJECTS

Site Equipment Deployment and Retrieval System

- Developed a Python-based system for tracking equipment status, customer assignment, and delivery/retrieval schedules, reducing manual data entry by approximately 40%.
- Integrated with existing inventory databases to ensure real-time accuracy of equipment availability and location.
- Designed a simple command-line interface for field technicians to update job status and equipment condition from customer sites.

Solar Component Diagnostic and Repair Guide

- Compiled a comprehensive troubleshooting guide for common issues with solar panels, charge controllers, and battery systems used in traffic safety equipment.
- Documented step-by-step repair procedures, including safety precautions and required tools, for battery pack replacements and wiring harness repairs.
- Created a visual reference with annotated diagrams of key components to aid in rapid fault identification.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
