HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed, built, and configured **AWS infrastructure** encompassing compute, networking, storage, and IAM services, ensuring robust platform foundations.
- Operated and troubleshot **Kubernetes environments on EKS**, resolving complex issues related to pod scheduling, networking, and resource allocation.
- Investigated and resolved production incidents involving **AWS services, Kubernetes workloads, and application dependencies**, identifying root causes to prevent recurrence.
- Developed and implemented **monitoring and observability solutions** using logs, metrics, and dashboards to provide actionable alerts and assess platform health.
- Automated infrastructure and operational tasks using **Python scripting**, reducing manual effort and improving deployment consistency across the platform.
- Managed **cloud security, permissions, and patching requirements**, mitigating operational risks and addressing configuration weaknesses to maintain a secure environment.
- Collaborated with development teams to understand application requirements and deliver **suitable infrastructure and platform solutions**, ensuring alignment with business needs.

SKILLS

Cloud Platform – AWS, EKS, EC2, S3, Lambda, CloudWatch, IAM

Containerization & Orchestration – Kubernetes, Docker

Programming & Scripting – Python, Java, Spring Boot

Databases – PostgreSQL, MySQL, Oracle

DevOps & CI/CD – Jenkins, Git

Monitoring & Observability – Splunk, Dynatrace

Operating Systems – Linux, Windows

PROJECTS

AWS EKS Platform Enhancement

- Engineered a scalable **AWS EKS cluster** configuration using Terraform, defining networking rules, IAM roles, and node group parameters for optimal performance.
- Implemented **CI/CD pipelines with Jenkins** to automate the deployment of containerized applications to EKS, reducing deployment times by approximately 40%.
- Developed automated health checks and alerting mechanisms for Kubernetes workloads, integrating with **Splunk** for centralized log aggregation and analysis.

Python-based AWS Resource Automation

- Created Python scripts to automate the provisioning and de-provisioning of **AWS EC2 instances and S3 buckets** based on dynamic demand, improving resource utilization by 15%.
- Built a **Python CLI tool** for managing common cloud operations tasks, such as snapshotting databases and updating security group rules, used by the operations team.
- Integrated **AWS Lambda functions** triggered by CloudWatch events to perform automated patching and configuration updates on Linux servers, reducing manual intervention.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
