HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed, configured, and maintained **Azure infrastructure** across compute, networking, and storage, ensuring high availability for production workloads.
- Deployed and operated **Kubernetes workloads**, including **AKS**, focusing on reliability and efficient resource utilization within the platform.
- Investigated and resolved production incidents across infrastructure, operating systems, and application dependencies, identifying root causes to prevent recurrence.
- Developed **monitoring and observability** solutions using logs, metrics, and dashboards to proactively assess platform health and diagnose failures.
- Automated infrastructure and operational tasks using **Python scripting**, improving efficiency and reducing manual processes across the platform.
- Managed access controls and addressed patching requirements, configuration weaknesses, and operational risks to enhance platform security and maintainability.
- Contributed to the reduction of technical debt and fragile configurations by identifying and refactoring inefficient or outdated components.

SKILLS

Cloud Platform – Azure, AKS, Azure Compute, Azure Networking, Azure Storage, Azure Identity

Container Orchestration – Kubernetes, Docker

Scripting & Automation – Python, Shell Scripting

Observability – Logging, Metrics, Dashboards, Alerting

Infrastructure Management – Infrastructure as Code, Configuration Management

Operating Systems – Linux, Windows

PROJECTS

Azure Platform Enhancement Project

- Designed and implemented a new **Azure networking** topology to improve connectivity and security for development teams.
- Automated the deployment of common infrastructure components using **Terraform**, reducing manual configuration time by 40%.
- Developed comprehensive **monitoring dashboards** in Azure Monitor to track key performance indicators for critical platform services.

Kubernetes Workload Automation

- Configured and managed **AKS clusters** for hosting containerized applications, focusing on high availability.
- Wrote **Python scripts** to automate the deployment and scaling of **Kubernetes workloads**, integrating with CI/CD pipelines.
- Implemented logging and alerting for containerized applications using Fluentd and Prometheus, ensuring timely issue detection.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
