HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **.NET Core** backend services and **REST APIs** for enterprise applications, handling approximately 5,000 requests per hour.
- Implemented asynchronous processing patterns using **C#** and **Entity Framework Core** for background tasks, improving system responsiveness by **15%**.
- Authored comprehensive **unit tests** and integration tests in **xUnit**, achieving over **85% code coverage** for critical application modules.
- Collaborated within an **Agile** team to define sprint goals, estimate tasks, and participate in daily stand-ups and sprint reviews for new feature development.
- Enhanced **SQL Server** database performance through query optimization, indexing strategies, and schema adjustments, reducing average query times by **20%**.
- Integrated **ReactJS** components with backend **ASP.NET MVC** applications, enabling dynamic user interfaces and improving client-side data handling.
- Containerized applications using **Docker** and deployed to cloud environments, ensuring consistent build and deployment pipelines through **CI/CD** integration.

SKILLS

Backend Development – C#, .NET Core, ASP.NET MVC, Entity Framework Core, REST APIs, SQL Server

Frontend Development – ReactJS, JavaScript, HTML, CSS

Testing & Quality – xUnit, Unit Testing, Integration Testing, Code Coverage

Cloud & DevOps – Docker, CI/CD, Cloud Platforms

Methodologies – Agile, Scrum

PROJECTS

Modernized Core Banking Platform Backend

- Engineered **Java Spring Boot** microservices to replace legacy monolithic systems, improving system modularity and enabling independent deployments.
- Implemented persistence layers using **Hibernate** and **PostgreSQL**, ensuring data integrity and efficient transaction handling for financial operations.
- Developed **RESTful APIs** for internal service communication, adhering to strict contract definitions and facilitating integration with downstream applications.

Enterprise Resource Planning System Integration Layer

- Built **Python** scripts to automate data extraction and transformation processes from disparate ERP modules into a central data warehouse.
- Designed and implemented ETL pipelines using **pandas** and **SQL** to load and validate data, supporting critical business reporting workflows.
- Managed change control processes for system configuration updates and coordinated User Acceptance Testing (UAT) across multiple interconnected enterprise systems.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
