HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for core business services, handling over **1,500 requests per minute** during peak load.
- Implemented persistence logic using **Hibernate** and **JPA**, managing data models and ensuring efficient database interactions for enterprise applications.
- Designed and executed unit and integration tests using **JUnit** and **Mockito**, achieving **85% code coverage** for new feature development.
- Contributed to React.js interfaces, translating UI/UX designs into functional components and integrating with backend APIs.
- Wrote and optimized complex **T-SQL queries** and stored procedures for **SQL Server**, improving data retrieval performance for financial reporting.
- Supported application builds and deployments using **Docker** within **Linux** environments, managing container lifecycles and basic configuration.
- Collaborated with business stakeholders on securities and custody requirements, translating needs into technical specifications for application development.

SKILLS

Backend Development – C#, .NET, Java, Spring Boot, REST APIs, Hibernate, JPA, T-SQL, SQL Server, Microservices

Frontend Development – React.js, JavaScript, HTML, CSS

DevOps & Cloud – Docker, Kubernetes, OpenShift, Linux, Jenkins, Git, CI/CD, AWS (EC2, S3, Lambda, CloudWatch)

Databases – SQL Server, PostgreSQL, MySQL, Oracle

Methodologies – Agile, Scrum, Automated Testing, Jira, Confluence

Domain Knowledge – Securities, Custody, Financial Services Applications, Transaction Monitoring, Reconciliation Workflows

PROJECTS

Financial Transaction Processing Service (HCL Technologies)

- Developed a **Java Spring Boot** microservice to process financial transaction messages, integrating with a **JPA** persistence layer backed by **PostgreSQL**.
- Implemented asynchronous messaging patterns using RabbitMQ for reliable communication between service components, processing approximately **2,000 messages per hour**.
- Containerized the service using **Docker** for consistent deployment across development and production environments.

Customer Data Aggregation Dashboard (MSc Project)

- Built an interactive dashboard using **Power BI** to visualize customer data aggregation metrics and ETL pipeline status for business stakeholders.
- Developed **DAX measures** and data models to support complex analytical queries, enabling drill-down analysis into data quality issues.
- Utilized **Power Query** to extract, transform, and load data from multiple sources into a unified data model.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
