PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **React Native** mobile applications and **React** web applications, contributing to new feature delivery and customer experience improvements.
- Designed and built **C#/.NET** backend services and **RESTful APIs**, ensuring clean, maintainable, and well-tested code across the product lifecycle.
- Collaborated with Product and UX teams to translate user stories into technical designs and implement new functionalities within an Agile framework.
- Troubleshot and optimized application performance, reliability, and scalability issues, ensuring high availability and efficient resource utilization for enterprise clients.
- Participated actively in code reviews and technical discussions, driving continuous improvement initiatives and knowledge sharing within the engineering team.
- Integrated backend services with relational databases, specifically **SQL Server**, to support complex data operations and reporting requirements.
- Managed application deployments and infrastructure on **AWS**, including EC2 instances and S3 storage, ensuring smooth and reliable service delivery.

SKILLS

Frontend/Mobile – React Native, React, JavaScript, TypeScript

Backend – C#, .NET, .NET Core, .NET 6+, RESTful APIs, SignalR

Databases – SQL Server, PostgreSQL, MySQL, Oracle

Cloud – AWS, Azure

DevOps/Tools – Git, Jenkins, Docker, Kubernetes, Redis, Kafka

PROJECTS

Enterprise Mobile App Enhancement (HCL Technologies)

- Enhanced a **React Native** mobile application for enterprise clients, adding new user-facing features and improving navigation workflows.
- Developed supporting **RESTful APIs** in **C#/.NET** to serve data for the mobile application, focusing on performance and scalability.
- Integrated the application with a **PostgreSQL** database, performing schema updates and writing efficient queries for data retrieval.

Customer-Facing Web Portal Development (HCL Technologies)

- Built a customer-facing web portal using **React** and **TypeScript**, enabling clients to access operational dashboards and manage their services.
- Designed and implemented backend services using **Java Spring Boot** to manage user authentication and data persistence for the portal.
- Containerized the web application components using **Docker** for consistent deployment across development and production environments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
