HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Architected and implemented **Java Spring Boot** RESTful services for backend systems, handling critical data exchange between multiple enterprise applications.
- Developed and maintained **Hibernate** ORM mappings and performed complex SQL queries to interact with relational databases, ensuring data integrity and efficient retrieval.
- Designed and coded object-oriented solutions in **Java**, applying design patterns and writing comprehensive **JUnit** tests to ensure code quality and maintainability.
- Developed **Python** scripts to automate ETL processes, transforming and loading data from disparate sources into a central data warehouse for reporting.
- Implemented **IaC** best practices to enhance deployment pipelines, ensuring **robust** and secure service delivery across production environments.
- Built extensible tools and streamlined complex processes for network management, including **metric collection** and **configuration** management.
- Containerized applications using **Docker** and deployed them to **AWS EC2** instances, managing infrastructure through **Jenkins** CI/CD pipelines.

SKILLS

Languages – Java, Python, SQL, Linux Shell Scripting

Frameworks & Libraries – Spring Boot, Hibernate, Spring, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Kubernetes

Databases – PostgreSQL, MySQL, Oracle

Tools & Monitoring – Splunk, Dynatrace, Jira, Confluence

Networking & Infrastructure – Network Automation, Metric Collection, Configuration Management, Zero-Touch Provisioning, Monitoring, Auto-Remediation, Network Topologies, Network Protocols

PROJECTS

Network Automation Framework (HCL Technologies)

- Developed a **Python**-based framework to automate network device configuration and status checks, reducing manual effort by approximately 40%.
- Integrated **FastAPI** to expose an API for triggering network diagnostic scripts and collecting operational metrics from thousands of devices.
- Implemented comprehensive logging and error reporting using **Splunk** to track automation job success rates and identify system anomalies.

Distributed System Monitoring Service (HCL Technologies)

- Engineered a **Java Spring Boot** service to collect and aggregate performance metrics from distributed network components and critical services.
- Designed a **PostgreSQL** schema to store time-series metrics, supporting queries for trend analysis and anomaly detection dashboards.
- Wrote **JUnit** tests and integrated with **Jenkins** for continuous integration and deployment of the monitoring service.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
