PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and configured **Power Pages** websites for enterprise clients, translating business requirements into functional, data-driven web applications using **Dataverse** and **Power Automate**.
- Built custom web applications using **Power Pages**, integrating with **Dataverse** to manage and display complex business data for internal and external users.
- Designed and implemented solutions using **Dynamics 365** and **Power Automate**, automating business processes and improving operational efficiency for client projects.
- Wrote **JavaScript** and **CSS** for front-end enhancements on **Power Pages** sites, ensuring responsive design and an intuitive user experience across devices.
- Collaborated with business analysts and end-users to gather requirements, conduct UAT, and provide post-implementation support for **Power Platform** solutions.
- Configured and extended **Dataverse** tables, relationships, and business logic to support intricate data models and application workflows.
- Managed application deployments and configurations within **Azure** environments, working with CI/CD pipelines for efficient release management.

SKILLS

Microsoft Power Platform – Power Pages, Power Automate, Dataverse, Dynamics 365, Model Driven Power Apps

Web Technologies – JavaScript, CSS, HTML

Backend Development – .NET, C#, Azure Functions, Logic Apps

Databases – SQL Server, PostgreSQL

DevOps & Cloud – Azure DevOps, Azure, Kubernetes, TypeScript, React

Methodologies – Agile, Scrum

PROJECTS

Client Onboarding Portal (Power Pages)

- Developed a secure **Power Pages** portal for new clients to submit onboarding documentation and track their application status, directly integrated with **Dataverse**.
- Implemented custom forms and workflows using **Power Automate** to streamline the data collection and validation process for client onboarding, reducing manual entry by **40%**.
- Designed the user interface and navigation with **JavaScript** and **CSS** to ensure a user-friendly experience for clients interacting with the portal.

Internal Operations Dashboard (Power BI)

- Created interactive **Power BI** dashboards to visualize key operational metrics from various enterprise systems, enabling faster decision-making for management.
- Developed complex **DAX** measures and Power Query transformations to aggregate and analyze data from multiple sources, providing actionable insights.
- Published and shared reports with stakeholders, facilitating a data-informed approach to process improvement across the operations team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
