HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained production-grade microservices using **Java Spring Boot**, adhering to established coding standards and design patterns.
- Implemented robust data persistence layers with **Hibernate** and JPA, ensuring data integrity and efficient retrieval for enterprise applications.
- Designed and coded object-oriented solutions in **Java**, incorporating JUnit tests and Mockito for unit and integration testing of core modules.
- Mentored junior engineers on best practices for **code reviews** and adoption of new development methodologies, enhancing team-wide technical proficiency.
- Collaborated with development teams to establish and maintain their **CI/CD pipelines** using Jenkins, Git, and Artifactory for automated build, test, and deployment processes.
- Managed and improved the configuration and deployment of backend infrastructure using **Docker** and **Kubernetes** on AWS, ensuring high availability and scalability.
- Architected and deployed scalable cloud infrastructure solutions on **Azure** and **GCP**, focusing on high availability and operational efficiency.

SKILLS

Cloud Providers – Azure, GCP, AWS

Containerization & Orchestration – Docker, Kubernetes

CI/CD & IaC – Jenkins, Git, Artifactory, Ansible, Terraform

Programming Languages – Python, Java, Go, Bash

Databases – MongoDB, Elasticsearch, MySQL, ScyllaDB, Redis, Kafka

System Administration – Unix systems administration, Linux

Cloud Native – Microservices Architecture, Observability, SecOps

PROJECTS

Cloud Infrastructure Automation Framework

- Developed an **Ansible**-based automation framework to provision and configure cloud infrastructure across **AWS** and **Azure** environments, reducing manual setup time by 60%.
- Integrated **Terraform** modules for managing stateful resources like databases and message queues, ensuring consistent deployments and infrastructure-as-code practices.
- Implemented automated health checks and self-healing mechanisms for microservices deployed on **Kubernetes**, improving system resilience.

Java Microservices for Enterprise Systems

- Designed and built a suite of **Java Spring Boot** microservices to handle core business logic, integrating with enterprise ERP systems via REST APIs.
- Implemented efficient data access patterns using **Hibernate** and **PostgreSQL**, processing an average of 5,000 transactions per day.
- Containerized the microservices using **Docker** and orchestrated deployments on an on-premises Kubernetes cluster, ensuring high availability.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
