PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed the ongoing operation and improvement of **e-commerce platforms**, collaborating with colleagues to enhance website functionality and customer journey effectiveness.
- Explored potential **e-commerce channels** and identified opportunities to expand business into new online markets, assessing digital marketplaces for commercial suitability.
- Tracked performance measures across **e-commerce platforms**, analyzing results and reporting on progress to support business growth initiatives.
- Designed and implemented **Java Spring Boot REST APIs** for cross-service data exchange, incorporating request validation and circuit-breaker patterns to ensure system resilience.
- Developed and maintained **Python data pipelines** for ETL processes and scheduled reporting, integrating with PostgreSQL and Oracle databases to support operational needs.
- Containerised applications using **Docker** and deployed them to a Kubernetes cluster (EKS), managing Helm chart configurations and resource limits for predictable rollouts.
- Coordinated change-control management for system configuration updates and UAT, providing post-go-live support across interconnected ERP and operational platforms.

SKILLS

E-commerce – Online marketplaces, Digital commerce, Shopify, Amazon, E-commerce platforms, Online retail

Development – Java, Spring Boot, REST APIs, Python, Scripting, SQL, PostgreSQL, MySQL, Oracle, Docker, Kubernetes, AWS, Jenkins, Git

Data & Analytics – Power BI, Tableau, DAX, Power Query, Data modelling, Data warehousing, ETL, pandas, NumPy, scikit-learn, R

Project Management – Agile, Scrum, Jira, Confluence, Change management, Requirements gathering, UAT, Stakeholder communication

Operations – Production support, Monitoring, Incident response, SLA management, Linux, Shell scripting

PROJECTS

E-commerce Platform Enhancement Initiative

- Collaborated with marketing and product teams to introduce new capabilities and improve existing features on the company's primary **e-commerce platform**, increasing conversion rates by **18%**.
- Developed automated reporting scripts in **Python** to track key performance indicators across online sales channels, reducing manual reporting effort by **40%**.
- Integrated a new promotional campaign management module into the **Shopify** store, facilitating targeted sales events and improving customer engagement metrics.

Java-based Transaction Processing System

- Engineered a **Java Spring Boot** microservice to handle inbound transaction messages, ensuring robust processing and integration with downstream reconciliation systems.
- Implemented a **JPA** persistence layer to manage transaction data within a **PostgreSQL** database, supporting audit trail requirements and data validation.
- Wrote comprehensive **JUnit** tests to ensure service reliability, achieving over **90%** code coverage for critical transaction processing logic.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
