HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Embedded **SAST**, **DAST**, and **SCA** tools into **Jenkins** CI/CD pipelines, reducing critical vulnerabilities found in code reviews by **40%**.
- Collaborated with application development teams to conduct **threat modeling** for new microservices, translating findings into actionable **secure coding guidance**.
- Developed and maintained **secure-by-default** infrastructure-as-code modules using **Terraform**, enabling engineering teams to deploy hardened AWS environments.
- Operationalized the firm's cloud-native application protection platform (**Wiz**), triaging and remediating an average of **15 high-severity findings** per week.
- Established and codified cloud security guardrails on **AWS**, including **Service Control Policies** and default encryption for S3 buckets, enhancing overall posture.
- Hardened identity and access management on **AWS** by refining **IAM roles** and policies, enforcing least privilege principles across multiple accounts.
- Containerized several backend services using **Docker** and deployed them to an **EKS** cluster, ensuring consistent runtime environments and simplifying deployments.

SKILLS

Cloud Security – AWS, Azure, IAM, VPC, KMS, Service Control Policies, Public Exposure Controls, Entra ID, Azure Policy, Microsoft Defender for Cloud

CI/CD & Automation – Jenkins, Git, Python, Terraform, CloudFormation, Scripting, SAST, DAST, SCA, Secrets Management, Policy as Code

Application Security – Threat Modeling, Secure Coding Guidance, Vulnerability Management, Container Security, Kubernetes Security

Cloud Platforms – AWS, Azure, GCP

Tools & Technologies – Wiz, Docker, Kubernetes, EKS, Linux, Splunk, Dynatrace, Jira, Confluence

PROJECTS

Secure CI/CD Pipeline Enhancement (HCL Technologies)

- Integrated **SAST** and **secrets scanning** tools into the existing **Jenkins** pipelines for Java Spring Boot applications, catching security flaws earlier in the SDLC.
- Developed **Python** scripts to automate the analysis of scan reports, generating consolidated vulnerability summaries for development teams.
- Collaborated with operations teams to implement automated remediation steps for common security findings, reducing manual intervention by **30%**.

AWS Account Security Hardening (HCL Technologies)

- Implemented baseline security configurations across multiple **AWS** accounts using **Terraform**, including network security groups, IAM policies, and default encryption for S3.
- Configured **AWS Config rules** to monitor for compliance drift and alert on deviations from security best practices.
- Authored documentation and conducted knowledge-sharing sessions for internal teams on secure **AWS** resource provisioning.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
