PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Addressed incoming customer queries via telephone, email, and web-based systems, maintaining response times within agreed service levels for an enterprise client base.
- Resolved approximately 85% of customer issues during the first point of contact by employing effective troubleshooting and problem-solving techniques.
- Accurately logged comprehensive details of customer interactions and account updates on electronic customer relationship management (CRM) systems.
- Collaborated with internal departments to gather information and coordinate resolutions, ensuring client requirements were met efficiently.
- Managed a high volume of customer contacts in a fast-paced environment, consistently meeting target rates for calls and cases.
- Contributed to a positive team culture by actively participating in team meetings and supporting colleagues to achieve collective goals.
- Documented customer requests and interaction details with precision, ensuring clear communication pathways for follow-up actions and escalations.

SKILLS

Customer Service – Telephone Support, Email Support, Web-based Systems, Customer Satisfaction, First Contact Resolution, Escalation Management.

Administration – Data Logging, Account Management, CRM Systems, Documenting Customer Requests, Workload Management.

Communication – Active Listening, Verbal Communication, Written Communication, Interdepartmental Liaison, Team Collaboration.

PROJECTS

Enterprise Customer Support Workflow Enhancement

- Developed and implemented a streamlined process for handling customer inquiries across multiple channels, reducing average resolution time by 18%.
- Configured and utilized a CRM system to track customer interactions, manage case escalations, and generate weekly operational reports for management review.
- Collaborated with a cross-functional team including operations and client management to refine service level agreements and improve overall customer experience.

Internal Operations Dashboard for Service Metrics

- Designed and built an internal dashboard using **Power BI** to visualize key customer service metrics, including call volume, resolution rates, and customer satisfaction scores.
- Extracted and transformed data from various sources using **Power Query** and applied **DAX** measures to create insightful reports and identify areas for process improvement.
- Presented interactive dashboard findings to the customer support team and management, facilitating data-informed decisions to enhance service delivery.
