HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot** microservices for internal collaboration tools, focusing on RESTful API development and efficient data exchange between services.
- Developed and maintained **Hibernate** ORM mappings and performed complex SQL queries against relational databases to support application data persistence and retrieval.
- Authored **JUnit** and **Mockito** tests for core Java components, ensuring code quality and adherence to object-oriented design principles, achieving over **85% code coverage** for new features.
- Collaborated with cross-functional teams, including product managers and designers, to define technical requirements and estimate effort for new features in iterative development cycles.
- Contributed to refining user workflows by integrating new AI-powered capabilities into existing internal tools, enhancing employee productivity for tasks like information retrieval and content generation.
- Owned end-to-end development of new internal tooling features, from initial concept and stakeholder engagement through to deployment and post-launch monitoring.
- Containerized collaboration microservices using **Docker** and managed their deployment on **AWS EC2** instances, ensuring consistent environments and simplified scaling.

SKILLS

Languages – Java, Python, SQL, R, TypeScript, HTML, CSS

Frameworks & Libraries – Spring Boot, Hibernate, JPA, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI, React, Angular

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git, Kubernetes

Databases – PostgreSQL, MySQL, Oracle

Tools & Platforms – Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau, RStudio

Methodologies – Agile, Scrum, CI/CD

PROJECTS

Internal Collaboration Platform Enhancement (HCL Technologies)

- Developed a new module for an internal collaboration platform using **Java Spring Boot** and **PostgreSQL** to manage user-generated content, improving content discoverability by **20%**.
- Integrated a prototype AI-driven summarization feature using Python scripts and the **FastAPI** framework, enabling users to quickly grasp key information from lengthy documents.
- Containerized the new module with **Docker** and deployed it to a staging environment, streamlining the testing and integration process for the operations team.

AI-Powered Knowledge Assistant (MSc Project)

- Built a **Python**-based application that integrates with a large language model via API to answer user queries based on a provided knowledge base, using **LangChain** for prompt management.
- Developed a simple web interface using **Flask** and basic HTML/CSS for users to interact with the knowledge assistant, handling approximately **50 concurrent queries** during testing.
- Implemented basic logging and error handling to monitor assistant performance and identify common failure points in user interactions.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
