PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Java Spring Boot REST APIs** to support cross-service data exchange, incorporating request validation and circuit-breaker patterns.
- Engineered **Hibernate/JPA persistence layers** for enterprise applications, managing complex data models and ensuring data integrity across relational databases.
- Developed **JUnit and Mockito unit tests** for Java components, achieving over 85% code coverage and ensuring application stability during feature development.
- Collaborated with Sales and Solution Architecture teams to understand client needs, translating complex business requirements into technical integration plans for enterprise users.
- Provided deep technical support and debugging for large enterprise users, inspecting application code and APIs to resolve integration issues and ownership escalations.
- Led Hands-On Keyboard implementations for user engagements, offering feedback on **coding practices** and **software architecture** to improve reliability and efficiency.
- Containerized microservices using **Docker** and deployed them to **AWS EKS**, configuring basic resource limits and monitoring for predictable production rollouts.

SKILLS

Languages – Java, Python, SQL, R, TypeScript

Frameworks/Libraries – Spring Boot, Hibernate, JPA, Spring Cloud, JUnit, Mockito, pandas, NumPy, scikit-learn, FastAPI

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes (EKS), Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

Tools/Platforms – Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau, RStudio

Concepts – REST APIs, Microservices, Data Analytics, Machine Learning, CI/CD, Agile Methodologies, Integration Engineering, Payments Domain, API Security

PROJECTS

Enterprise Payments Integration Platform

- Developed **Java Spring Boot microservices** to process and route financial transaction data, handling approximately 5,000 events per second during peak operational hours.
- Implemented a **Hibernate ORM layer** for data persistence, integrating with PostgreSQL to manage a high-volume transaction ledger and reconciliation workflows.
- Built **CI/CD pipelines using Jenkins** to automate build, test, and deployment processes for the payments platform, reducing deployment lead time by 40%.

Customer Onboarding Tooling for Financial APIs

- Created a **Python CLI tool** to validate customer integration configurations against API schemas before submission, catching over 70% of common schema errors at write time.
- Designed and developed a **FastAPI-based proof-of-concept** demonstrating key integration patterns for enterprise clients connecting to financial services APIs.
- Documented integration best practices and common troubleshooting steps, directly supporting the onboarding of two pilot enterprise customers.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
