HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented enterprise-grade automations using **Tungsten Automation** and **UiPath**, translating complex business processes into secure and maintainable technical solutions.
- Embedded **AI capabilities** into automation workflows for intelligent document classification and extraction, processing approximately 5,000 documents weekly to improve data validation accuracy.
- Developed and deployed multi-agent solutions, orchestrating agent coordination, task decomposition, and tool use to automate complex data analysis workflows.
- Owned the end-to-end technical lifecycle for the **Microsoft Power Platform**, including architecture, roadmap, environment management, and capacity planning for a user base of over 150 analysts.
- Established reusable automation components and engineering standards, increasing delivery consistency and reducing average automation build time by **18%**.
- Mentored junior developers on automation best practices, conducted code reviews for over **200 automation scripts**, and actively raised engineering capability across the team.
- Containerized automation solutions using **Docker** and deployed them to a managed Kubernetes environment on **AWS**, ensuring scalable and resilient operation.

SKILLS

Automation Platforms – Tungsten Automation, UiPath, Microsoft Power Platform, RPA

AI & ML – Intelligent Document Processing, Knowledge Discovery, Content Generation, Agentic Orchestration, Multi-Agent Systems, AI Governance

Programming & Scripting – Python, Java, SQL, REST APIs, Shell Scripting

Cloud & Infrastructure – AWS, EC2, S3, Lambda, CloudWatch, Docker, Kubernetes, Linux

Databases – PostgreSQL, MySQL, Oracle

DevOps & Tools – Jenkins, Git, Jira, Confluence, Splunk, Dynatrace

PROJECTS

Intelligent Document Processing for Financial Reporting

- Developed a Python-based automation solution leveraging **Tungsten Automation** to ingest and classify financial reports, processing an average of **1,200 reports** per day.
- Integrated **AI capabilities** for data extraction from semi-structured documents, improving the accuracy of key data point capture by **22%** compared to manual methods.
- Designed and implemented agentic orchestration to coordinate data validation steps and integrate extracted information into downstream reporting systems via secure **APIs**.

Automated Reconciliation Workflow Enhancement

- Engineered enhancements to an existing reconciliation workflow using **UiPath**, focusing on exception handling and automated data correction for transaction discrepancies.
- Built reusable components and **Python** scripts to streamline data preparation and validation tasks, reducing manual intervention by approximately **30%** for a team of 5 analysts.
- Collaborated with business stakeholders to gather requirements and ensure the automation met critical control and auditability standards within a regulated financial-services environment.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
