HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained a **Java Spring Boot** microservice responsible for processing sales and trading transaction data, handling approximately **2,000 events per second**.
- Implemented robust **JPA** entities and Hibernate mappings to manage complex financial data structures within the enterprise middleware, ensuring data integrity across multiple tables.
- Designed and implemented RESTful APIs using **Spring Boot** for inter-service communication, facilitating data exchange between front-office and back-office systems.
- Participated in **agile ceremonies**, including sprint planning and daily stand-ups, contributing to technical estimations and backlog refinement for new feature development.
- Collaborated with **Business Analysts and Product Owners** to gather and translate functional requirements into technical specifications for middleware enhancements.
- Contributed to code reviews for junior developers, ensuring adherence to coding standards and best practices within the global development team.
- Containerized the middleware application using **Docker** and deployed it to a development cluster on **AWS EC2**, managing container lifecycles and basic resource allocation.

SKILLS

Languages – C#, .NET (V6), SQL, Java, Python, R

Databases – MS SQL Server, PostgreSQL, MySQL, Oracle

Frameworks/Libraries – Spring Boot, JPA, Hibernate, .NET Framework

Cloud/DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Tools – Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau

Methodologies – Agile, Scrum, ITIL

PROJECTS

Java Middleware for Transaction Processing

- Engineered a **Java Spring Boot** application to serve as a central middleware component, processing and routing sales and trading transactions between disparate systems.
- Integrated **Hibernate and JPA** for efficient data persistence and retrieval from an MS SQL Server database, managing a schema with over **150 tables** related to trade settlements.
- Developed comprehensive unit and integration tests using **JUnit and Mockito**, achieving over **90% code coverage** for critical transaction processing modules.

Automated Data Reconciliation Service

- Built a **Python** service that automated the reconciliation of financial transaction data between two enterprise systems, identifying and flagging discrepancies.
- Developed data extraction scripts using **SQL (PostgreSQL)** and data transformation logic with **pandas**, processing approximately **50,000 records daily**.
- Integrated the service with **Jenkins** for scheduled execution and automated reporting, reducing manual reconciliation effort by an estimated **30%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
